Preface

After the Moscow archives were opened to historians, the Central Construction Office of the Waffen-SS and Police Auschwitz – *Zentralbauleitung der Waffen-SS und Polizei Auschwitz* – began to attract the attention of scholars, thanks above all to Jean-Claude Pressac.¹

The Central Construction Office is commonly mentioned by historians and journalists, but we still know practically nothing about this extremely important agency, which was responsible for the planning and construction of the Auschwitz-Birkenau complex. Apart from the scanty information supplied by French historians,² very little is known. The importance of a specific study on the Central Construction Office of the Waffen-SS and Police Auschwitz lies not only in the clarification of an aspect of the history of the camp, which is still wrapped in obscurity for the most part, but also in understanding the standard operating procedures of the organization and of the tasks of the Central Construction Office of Auschwitz. This enables a more profound understanding of documents. This in turn provides protection against facile interpretive errors of such documents, a frequent occurrence among Auschwitz historians.

This study is based primarily on unpublished Moscow documents. It constitutes the first attempt to reconstruct the history of the Central Construction Office of Auschwitz. Although it is far from perfect, due precisely to its pioneering nature, it does delineate the structure, tasks, and essential activities of this office in an essential manner.

* * *

On January 27, 1945, Soviet soldiers of the 60th Army of the 1st Ukrainian Front entered Auschwitz. The various commissions of inquiry, which carried on their activities in February and March of 1945, confiscated an enormous quantity of

¹ Jean-Claude Pressac, *Les Crématoires d'Auschwitz: La machinerie de la meurtre de masse*. CNSR Editions, Paris 1993.

² *Ibidem*, pp. 132-135; more recent works on Auschwitz published after that of J.-C. Pressac are even shorter on information on this topic, including the most important ones: Franciszek Piper, *Arbeitseinsatz der Häftlinge aus dem KL Auschwitz*, Verlag Staatliches Museum in Oswiecim, 1995; Robert Jan van Pelt, Deborah Dwork, *Auschwitz 1270 to the Present*, Yale University Press, New Haven and London, 1996; Robert Jan van Pelt, *The Case for Auschwitz. Evidence from the Irving Trial*. Indiana University Press, Bloomington and Indianapolis 2002. Even the *opus magnum* in five volumes of the Museum of Auschwitz deals with the whole matter in little more than five pages: Aleksander Lasik, "Die Organisationsstruktur des KL Auschwitz," in: Waclaw Długoborski, Franciszek Piper (eds.), *Studien zur Geschichte des Konzentrations- und Vernichtungslagers Auschwitz*, Verlag des Staatlichen Museums Auschwitz-Birkenau, Oświęcim 1999, vol. I, pp. 300-305.

documents abandoned by the SS. Among the documents was also the archive of the Central Construction Office. The greater part of these documents was then taken to Moscow, while the remainder was left at Auschwitz at the disposition of the Polish examining magistrate, Jan Sehn, who began his activities in April 1945.

The archive of the Central Construction Office is conserved at Moscow in the *Rossiiskii Gosudarstvennii Vojennii Archiv* (Russian State War Museum, formerly known as the *Tsentral'nyi Khranenije Istoriko-dokumental'noe Kollektivnoe* (Center for the Conservation of the Historical-Documentary Collection) on Viborgskaja Street. The catalogue system is organized by the following: *fond* (fund), *opis* (list), and *delo*³ (file). A *fond* consists of several *opisi*, one *opis* of several *dela*. The documents of the Central Construction Office form part of the *fond* Number 502 and are contained in 4 *opisi*, indicated by the Arabic numbers 1, 2, 4 and 5; *opis* 1 contains 452 *dela*, consecutively numbered from 1 to 450 (2 files are double: 23a and 59a) and approximately 62,800 pages of documents; *opis* 2 contains 164 *dela* consecutively numbered from 1 to 154 (10 files are double or triple or quadruple: 1a, 1be, 1ve; 34a; 60a, 60be, 60ve, 60ghe; 84a and 124a) and consists of approximately 22,800 pages of documents; *opis* 4, which contained the original Auschwitz death books (*Sterbebücher*), subsequently ceded to the State Museum of Oswiecim-Brzezinka (Auschwitz), presently consists of 52 *dela* progressively numbered from 1 to 52, containing approximately 67,500 pages, of which nearly 300 pages are documents of the Central Construction Office, while the rest are photocopies of the death books; *opis* 5 contains 23 *dela*, progressively numbered from 1 to 23, and consists of approximately 2,300 pages. In total, the archive on Viborskaja Street contains approximately 88,200 pages of documents from the Central Construction Office. For every *opis*, there is a search register in which the individual *dela* are catalogued with a brief description of the content, the number of the pages of the file, and possibly the year to which the documents contained in it refer. The *opisi* do not have a precise logical order and contain *dela* on various topics; the *dela*, in the register of the *opis*, are by contrast grouped by topic (for example, invoices, electrotechnical installations, sewer pipes, administration, offices, disinfestation and disinfection, etc.); this system of cataloguing nevertheless only reflects to a small degree the archiving organization of the Central Construction Office. Many documents exhibit a double numbering: the older one probably corresponds to the first cataloguing done by the Soviets, the present one, existing in the registers of the *opisi*, dates back to the 1950s.

³ The pronunciation is approximately “dyela”.

In the citations contained in this study I have indicated the Moscow archives with the abbreviation *RGVA*, consisting of the initials of its name in transliterated Russian, followed by the numbers of the *fond*, then the *opis*, and finally the *delo* and the page number(s), with which the document is catalogued there (including the rare cases, in which this number is not legible on the photocopies in my possession), for example, *RGVA*, 502-1-11, pp. 55-57. Many documents are also written on the reverse of the sheet. This bears the same cataloguing number as the front page, but is identified by the letters “*ob*” (= *obratnaja storona*: rear part). I have indicated this with the letter “a”. For greater clarity I have also mentioned the type of document and its heading.

Carlo Mattogno

Chapter I:

Organization and Tasks

1. Origin and Development of the Central Construction Office

In May 1940, when the first inmates were transferred to Auschwitz, the construction administrative sector of the concentration camps depended on Office II (*Amt II*) of the Main Office Budget and Construction (*Hauptamt Haushalt und Bauten, HHB*), directed by SS *Oberführer* and doctor of engineering Hans Kammler. Office II comprised 7 main departments (*Hauptabteilungen*) and two departments (*Abteilungen*):⁴

Main Department II/1: General affairs relating to construction, subdivided into 5 sections

Main Department II/2: Accounting, subdivided into 5 sections

Main Department II/3: General Construction, subdivided into 5 sections

Main Department II/4: Special Construction, subdivided into 5 sections

Main Department II/5: Central Inspection of Construction, subdivided into 6 sections

Main Department II/6: Planning, subdivided into 5 sections

Main Department II/7: Specialist Technical Sectors, subdivided into 6 sections

Department II/Ro:⁵ Raw Materials Office

Department II/K:⁶ Vehicles.

On February 1, 1942, the SS Economic and Administrative Main Office (*SS Wirtschafts- und Verwaltungshauptamt – SS WVHA*; see its organization chart in Document 2) was created with the merger of the Main Office Administration and Economics and the Main Office Budget and Construction, in which Office II became Office Group C (*Amtsgruppe C*), also directed by SS *Oberführer* Kammler.

Office Group C was organized into 6 offices (*Ämter*; see Table III in the Appendix):

⁴ See Document 1 in the documentary Appendix (organization chart of the *Amt II* of the *Hauptamt Haushalt und Bauten*).

⁵ *Rohstoffstelle*.

⁶ *Kraftfahrwesen*.

- C I: General Construction
- C II: Special Construction
- C III: Specialist technical sectors
- C IV: Artistic special sectors
- C V: Central construction inspection
- C VI: Building maintenance and business administration.

The competence of the treatment of the concentration camp inmates, which was a matter of precedence and had been the responsibility of the Office II-C of the Main Office Budget and Construction, was transferred to a new group of offices specially created within the *WVHA*, the Office Group D, directed by SS *Brigadeführer* and Major General of the *Waffen-SS* Richard Glücks.⁷ The *WVHA* was under the command of the SS *Gruppenführer* and Lieutenant General of the *Waffen-SS*, Oswald Pohl.

On June 30, 1941, Kammler, in his capacity as head of the Office II of the Main Office Budget and Construction, decided to reorganize the SS offices assigned to constructions (SS *Baudienststellen*), giving the following instructions:⁸

“1). The current field offices should be subordinated to Office II in all matters. They bear the designation: Central Construction Office of the Waffen-SS and Police (insert the place name).

2). In the future, the current New Construction Offices and the SS Construction Offices will be referred to as Construction Office of the Waffen-SS and Police (insert the place name).

3). The organization of the Central Construction Offices must follow the organizational plan attached to Annex 1 starting on July 1, 1941.

4). The organization of the Construction Offices must be carried out according to the organizational plan attached to Annex 2 until July 1, 1941.

5). Starting on July 1, 1941, on the 10th of every month, the Central Construction Offices and the Construction Offices must furthermore submit a communication on the strength of personnel according to the model attached to Annex 3.

To obtain a continuous overview of the state of the construction work, in future, on the 10th of every month, it will be necessary to submit a construction report [Baubericht] according to the model attached to Annex 4.

In regard to the installations, it will be necessary to observe the following:

Annex 1: organization of a Central Construction Office.

⁷ NO-111.

⁸ *Hauptamt Haushalt und Bauten. Amt II – Bauten, Amtsbefehl 3, Der Chef des Amtes II-Bauten, SS Oberführer Kammler, June 30, 1941. RGVA, 502-1-11, pp. 55-57.*

The central supply of construction materials takes place in sector 1^[9] – general construction matters – under 3, construction materials.

The Central Construction Office comprises several construction projects. Every construction project comprises several construction sites. Several construction sites, which are to be executed within a given time frame, form a construction sector. Individual objects within individual construction projects hitherto called construction sectors are therefore called construction sites^[10] starting on July 1, 1941. In correspondence and in accounting the change must take place on the same date. The head of the Central Construction Office is called ‘Head of the Central Construction Office.’

Annex 2: organization of a Construction Office

With regards to the supply of raw materials, see as for the Central Construction Office.

The Construction Office includes a construction project with several construction sites. The head of the construction office is called head of constructions.

Annex 3: the communication of the strength of personnel is organized in the following sections:

Section 1 head of constructions [Bauleiter] and deputy head of constructions.

- a) employees of technical sector*
- b) assistants of technical sector (without finished academic occupational training)*
- c) employees of the administrative sector*
- d) salaried employees (workers of the administration, drivers, cleaning women, cooks, etc.)*

Section 2

- a) workers in the technical sector enrolled for military service*
- b) workers in the administrative sector enrolled for military service*

Section 3

- a) workers in the detached technical sectors (it is necessary to refer with an annotation the office to which or from which the personnel is detached)*
- b) detached typists*

Annex 4: in the form ‘Baufristenplan’^[11] it is necessary to report only the construction sites which are authorized for the second financial year of the war.

⁹ This refers to *Hauptabteilung 1* of *Hauptamt Haushalt und Bauten*.

¹⁰ *Bauwerk*. The term also refers to worksites.

¹¹ Construction deadline schedule. See Section 3 of Chapter II.

Moreover it is necessary to indicate in a particular manner the construction sites which are executed with special authorization. The duration must be traced graphically, where necessary, in red.

Annex 5: in the construction deadline schedule it is necessary to report separately also the following data, according to the model in Annex 5 – construction report:

1) List of all existing construction sites with the indication of the percentage of completion, data of provisional or final consignment (Übergabe).

2) List of all planned construction sites which have not yet been ordered for execution in the second financial year of the war, i.e., by 1th October 1941.

Indication of all estimated construction costs. Indication within the individual financial years of management costs of construction, of funds of the current financial exercise and of remaining payments.”

On November 12, 1941, Kammler supplemented these provisions by issuing the organization chart of a Central Construction Office (*Zentralbauleitung*; see Document 3) and of a Construction Office of the Waffen-SS and Police (*Bauleitung*; see Document 4). On November 17, he circulated the service order for the head of any Central Construction Office¹² and any Construction Office,¹³ accompanied by the respective work allocation plan.¹⁴ As regards the hierarchical pathway, the head of constructions was subordinated to the head of the Central Construction Office, the latter to the head of Construction Inspection (*Bauinspektion*) of the Waffen-SS and Police, which, in turn, depended on the Office II of the *HBB*. According to the organization chart promulgated by Kammler on November 12, the Construction Inspection was subdivided into 4 departments and 16 subsections (see Table V). In that time, Office II of the *HBB* exercised control over construction activities in the Reich, the annexed and occupied territories through eleven Construction Inspections; each supervised one or more Central Construction Offices and Construction Offices (see Table VI).

The Construction Office of Auschwitz was originally referred to as the SS New Construction Office (*SS-Neubauleitung*).¹⁵ In June 1940, while it only con-

¹² *Hauptamt Haushalt und Bauten*: “Dienstanweisung für den Leiter einer Zentralbauleitung der Waffen-SS und Polizei.” Wojewódzkie Archiwum Państwowe w Lublinie (hereinafter referred to as *WAPL*), *Zentralbauleitung*, 3, pp. 19f.

¹³ *Hauptamt Haushalt und Bauten*: “Dienstanweisung für den Leiter einer Bauleitung der Waffen-SS und Polizei, der der Zentral-Bauleitung der Waffen-SS und Polizei unterstellt ist.” *WAPL*, *Zentralbauleitung*, 3, pp. 22f.

¹⁴ *Hauptamt Haushalt und Bauten*: “Geschäftsverteilungsplan für einer Zentralbauleitung der Waffen-SS und Polizei und Geschäftsverteilungsplan für einer Bauleitung der Waffen-SS und Polizei.” *WAPL*, *Zentralbauleitung*, 3, p. 21 and 23.

¹⁵ This is apparent from the heading of the letters sent to and received by this office, for example, the letter to the Topf & Söhne company of Erfurt, May 27, 1940. *RGVA*, 502-327, p. 320. The

sisted of six men, this office was already sufficiently well organized. It consisted of four sections: the *Registratur* (registry), which dealt with correspondence; the *Kaufmännische Abteilung* (commercial department), in charge of purchases, upon which depended the *Materiallager* (material warehouses) inventoried in a suitable register (*Buchführung für das Materiallager*); the *Buchhaltung und Rechnungslegung* (accounting and reporting), which dealt with all the accounting questions; and *Planung* (planning), responsible for drafting construction plans. There were four construction sectors, in which the activities of the SS New Construction Office were carried out:

- I: *Um- und Ausbauten in den bestehenden Gebäuden* (remodeling and finishing work in existing buildings)
- II: *Verpflegungslager* (provisions warehouses)
- III: *Desinfektionsgebäude* (disinfection building)
- IV: *Krematorium* (crematory)¹⁶

Head of the SS New Construction Office was SS *Unterscharführer* August Schlachter,¹⁷ who was SS *Untersturmführer* at the beginning of September 1941;¹⁸ he made use of the collaboration of Walter Urbanczyk, at that time probably SS *Rottenführer*, who later became deputy head of construction,¹⁹ Wilibald Arloth, SS *Oberscharführer* in December 1942, Johann Wolter, SS *Untersturmführer* in June 1941, Paul Wilk, SS *Unterscharführer* in January 1941,²⁰ and two more non-commissioned SS officers whose names are unknown.

designation which appears in the stamps is: "Der Reichsführer SS. Hauptamt Haushalt und Bauten. SS Neubauleitung K.L. Auschwitz."

¹⁶ Schlachter's *Tätigkeitsbericht*, June 20, 1940, relating to the period June 14-20, 1940, and June 27 relating to the period June 21-27, 1940. *RGVA*, 502-214, p. 103 and 101.

¹⁷ The name, as noted by J.-C. Pressac, op. cit. (note 1) note 17 on p. 98, appears in an undated telegram from the SS *Neubauleitung* to the Topf company (*RGVA*, 502-1-327, p. 223). On July 29, 1940, Topf acknowledged receipt of this telegram quoting the text (*RGVA*, 502-1-327, p. 218), as appears with certainty two or three days before. Schlachter, who almost always signed documents with an illegible signature, appears extensively in the *Kontrollzettel für die Firma J.A. Topf & Söhne, Erfurt*, dated August 1940 (*RGVA*, 502-1-327, p. 215).

¹⁸ Schlachter is mentioned in the letter from the *Gebietsbeauftragter des Generalbevollmächtigten für die Regelung der Bauwirtschaft im Wehrkreis VIII* to the commandant of K.L. Auschwitz on September 4, 1942, with the non-existent rank of SS *Sturmführer* (*RGVA*, 502-1-319, p. 57); this is evidently an error.

¹⁹ In the letter from Topf to the SS *Bauleitung* of Auschwitz dated September 24, 1941, Urbanczyk (with the erroneous spelling Urbanczek) is mentioned as SS *Oberscharführer*. *RGVA*, 502-2-23, p. 270. In very early November 1941, Urbanczyk was SS *Untersturmführer und stellvertretender Bauleiter*. ("Bericht über die Dienstreise des SS Unterscharführers(S) Urbanczyk mit SS Strm. Böhm als Vertreter der Kommandantur K.-L. Auschwitz zur Bau-Chemie nach Berlin wegen Zuteilung von Rohstoffen." *RGVA*, 502-1-223, p. 77). In June 1940, as subordinate of SS *Unterscharführer* Schlachter, he probably held the rank of SS *Rottenführer*.

²⁰ His name appears in Schlachter's telegram to Topf, January 13, 1941. *RGVA*, 502-1-312, p. 130.

In September 1941, the effective personnel of the SS New Construction Office increased to nine persons. A few months later, the *Vermessungsabteilung* (surveying department) was assigned to measuring work and the topographic surveys in the zone of interest in the camp (*Interessengebiet*).²¹

Starting on July 1, 1941, according to the provisions of Kammler dated June 30, 1941, the SS New Construction Office assumed the name of Construction Office of the Waffen-SS and Police Auschwitz, while its head held the position of *Bauleiter*. In October 1941 a Special Construction Office for the Construction of a Prisoner of War Camp of the Waffen-SS in Auschwitz²² was created for drawing up the first plans of the Birkenau camp, among those plans was the Situation Map of the POW Camp Auschwitz O.S., drawn by SS *Rottenführer* Ertl on October 7, 1941,²³ the later Situation Map on October 14, drawn by inmate no. 471 Alfred Brzybylksi,²⁴ the “Listing of drainage pipe lengths,” drawn by inmate no. 115, Kasimir Jarzembowski, on November 7, 1941,²⁵ and the “Elevation map of the POW camp drainage map,” also drawn on November 7, 1941, by inmate Jarzembowski.²⁵ In November 1941, the management of construction and camp-expansion works was taken over by then SS Sturmmann Josef Janisch.²⁶ In that capacity he was authorized to take photographs in the camp for the *HBB* the following month.²⁷

On October 1, 1941, at the beginning of the third financial year of the war (*Kriegswirtschaftsjahr*),²⁸ Schlachter was substituted by SS *Hauptsturmführer* Karl Bischoff, who assumed the function of Head of Constructions (*Bauleiter*). The replacement of a second lieutenant with a captain was due to the new construction tasks to be carried out by the Construction Office.

November 1941 was a month of great change. The Construction Office, which now consisted of fifty SS men, was reorganized into four main departments: *Rechnungslegung* (accounting), *Hochbau* (above-ground construction), *Tiefbau* (below-ground construction), *Landmesser* (land surveying). This general subdivision appears in the protocol stamp for incoming mail towards the middle of the month (see Section 5.2. of Chapter II).

²¹ Schlachter's *Tätigkeitsbericht*, February 10, 1941, relating to the period February 2-8, 1941. *RGVA*, 502-1-214, p. 71. The surveying work (*Vermessungsarbeiten*) was already finished in November 1940. Schlachter's *Tätigkeitsbericht*, November 27, 1940, relating to the period November 17-27, 1940. *RGVA*, 502-1-214, p. 79.

²⁴ APMO, BW 2/2, neg. no. 21135/2, published by J.-C. Pressac, *ibid.*, p. 186.

²⁵ *RGVA*, 502-2-24, p. 226, *Zeichnung* no. 1244.

²⁶ *RGVA*, 502-1-57, p. 366 (characteristic notes of some members of the *Zentralbauleitung* compiled by Bischoff in January 1943).

²⁷ *Bescheinigung* of Bischoff, December 22, 1941. *RGVA*, 502-1-44, p. 3.

²⁸ The first financial year of the war extended from October 1, 1939 to September 30, 1940.

The Construction Office had now broadened to such an extent and had assumed such important tasks that on November 8, Bischoff asked Kammler that his office be promoted to Central Construction Office, adducing as his motive, among other things, the fact that the area of interest (*Interessengebiet*) of the concentration camp presented a surface area of 15 km² (6 square miles), where extensive construction works were expected, that they were in the course of constructing a POW camp for 125,000 prisoners of war, and that his office was responsible for the installation of a factory of the *Deutsche Ausrüstungswerke GmbH* of Berlin.²⁹ The request was approved, and on November 14, the Construction Office was promoted to Central Construction Office of the Waffen-SS and Police Auschwitz.³⁰ On November 25, 1941, a letter reached Auschwitz from Kammler on the saving of iron; the SS men addressed in this order appear in a list of names, which had to be signed in acknowledgement of receipt by each person named, and upon which 62 typewritten names and 34 signatures appear (see Document 5 and Table VIII). At least 52 of these SS men certainly belonged to the Central Construction Office, which, in addition to Bischoff, also had a few civilian employees (*Zivilangestellte*, abbreviated as *Z.A.*), among them the employee Nowak.³¹ The Special Construction Office for the Construction of a Prisoner of War Camp of the Waffen-SS in Auschwitz operated under this name until January 1942³² and later lost its Special (*Sonder-*) character, becoming the Construction Office of the POW Camp.

Starting on February 1, 1942, the Central Construction Office was restructured into ten departments:

1) *Hochbau* (above-ground construction), assigned to the construction of all buildings (barracks, wash-houses, kitchens, disinfestations installations, lodgings, etc.) for inmates and SS. In May 1942, the head of this department was SS *Unterscharführer* Ertl,³³ and SS *Unterscharführer* Kirschnek was head of construction. SS *Schütze* Werner Jothann formed part of this section as early as February 1942, at which time he was head of construction of nine construction sites, including the lodgings for civilian workers of the Central Construction Office (House 24).

²⁹ German Equipment Works, Ltd.; *RGVA*, 502-1-295, p. 203.

³⁰ *Hauptamt Haushalt und Bauten*. "Übersichtsplan der Bauinspektion und Zentralbauleitungen der Waffen-SS und Polizei." *WAPL*, Zentralbauleitung, 3, p. 24.

³¹ The name appears in the transcription of the telegram from Topf to the *Bauleitung* dated November 11, 1941. *RGVA*, 502-1-312, p. 102.

³² The last known project drawn up by this is the *Lagerplan des Kriegsgefangenlagers Auschwitz-Ober-Schlesien*, drawn on January 5, 1942, by SS *Unterscharführer* Karl Ulmer. APMO, BW 2/6, neg. no. 21135/4. Published by J.-C. Pressac, *op. cit.* (note 23), p. 189.

³³ As such Ertl is mentioned in the "Reisebericht über die Dienstreise nach Berlin vom 11-17. Mai 1942," compiled by Ertl himself on May 18 and filed on June 3, 1942. *RGVA*, 502-1-43, p. 14.

2) *Tiefbau* (below-ground construction), dealing with the construction of roads (*Straßenbau*), water supply (*Wasserversorgung*), surveying (*Vermessung*) for installations under its responsibility, including topographic maps of the area of interest of the camp, construction of railways, and drainage. At the end of 1942, SS *Unterscharführer* Ewald Schenk was head of this department. SS *Rottenführer* Walter Schuhknecht was assigned to the department *Strassenbau* in December 1942. In November 1942, the drainage work was carried out by the subsection *Kulturbau*, directed by the SS *Untersturmführer* Bernhard Wallergang.

3) *Planung* (planning) directed by SS *Untersturmführer* Walter Dejaco.

4) *Vermessung* (surveying), which worked in cooperation with *Tiefbau*.

5) *Technische Abteilung* (technical department)

6) *Kaufmännische Abteilung* (commercial department)

7) *Buchhaltung* (accounting), in which SS *Unterscharführer* Heinz Giesen-berg and civilian employee Heinrich Teichmann worked, who was also head of construction of six construction sites in April 1942, among them the reception building of the newly arrived inmates, the laundry house, and the slaughter-house (see Section 4 of Chapter II and related documents).

8) *Rohstoffe* (raw materials), directed by SS *Unterscharführer* Paul Wilk.³⁴

9) *Materialverwaltung* (materials administration)

10) *Fahrbereitschaft* (transportation department), in February 1942 directed by SS *Untersturmführer* Fritz Wolter, with SS *Sturmmann* Gertrud assigned to the use of sidecars;³⁵ in May 1942, the post of head of transportation department was occupied by SS *Scharführer* Kurt Kögel, promoted to SS *Oberscharführer* in January 1943, who maintained it uninterruptedly until July 1943. In 1942, he was replaced by SS *Unterscharführer* Georg Bergmann.

The first official list of the SS men forming part of the Central Construction Office dates back to December 15, 1942. By order of the Construction Inspection of the Waffen-SS and Police, Reich East, Posen, all members of the SS – SS *Führer*, SS *Untersturmführer* and SS *Männer* – had to be subjected to a medical examination to ascertain their suitability for service on the front. For this purpose, Bischoff drew up a complete list of the SS of the Central Construction Office for the army doctor of Auschwitz. 70 men are in this list with rank and date of birth (see Document 6 and Table IX.)

³⁴ In Ertl's "Reisebericht..." op. cit. (note 33), Wilk appears as *Leiter der Rohstoffsstelle*. *RGVA*, *ibid*.

³⁵ Gertrud's *Tätigkeitsbericht*, February 23, 1942. *RGVA*, 502-1-24, p. 409.

In January 1943, the Central Construction Office was divided into five Construction Offices and 14 sections (*Sachgebiete*) according to the following organization chart:³⁶

CENTRAL CONSTRUCTION OFFICE OF THE WAFFEN-SS AND POLICE AUSCHWITZ

Head: SS *Hauptsturmführer* Bischoff

Outer Office

SS *Unterscharführer* Thoma, businessman

SS *Sturmmann* Kofler, employee of construction office

Responsibilities

personal reporter and for special occasions

personal reporter

1) Above-Ground Construction

SS *Untersturmführer* (F) Ertl, civil engineer

Drawing up of all construction matters for the *Construction Offices* of the concentration camp, the POW camp, *Landwirtschaft*, *Industriebauten* (Krupp, Deutsche Ausrüstungswerke, Deutsche Erd- und Steinwerke), construction depot, Main Economic Camp (HWL),³⁷ Auschwitz, Troop Economic Camp (TWL),³⁸ Odersberg, Freudenthal, Gut Partschendorf, Werk und Gut. Construction management, construction policy, construction requests, documents relating to quota system, matters relating to G.B. Bau,³⁹ and B.f.H.⁴⁰ for the above-mentioned *Construction Offices*.

SS *Untersturmführer* (F) Wolter, civil engineer

2) Below-Ground Construction

SS *Untersturmführer* (F) Schenk, Underground technician

SS *Oberscharführer* Strang, construction assistant

Planning and realization of construction of streets, sewer pipes, water purification plants with plant for obtaining sewer gas, including the main

³⁶ "Geschäftsverteilungen der Zentralbauleitung der Waffen-SS und Polizei Auschwitz und der Unterstellten Bauleitungen." Document without date but drawn up in January 1943. *RGVA*, 502-1-57, p. 312-317.

³⁷ *Hauptwirtschaftslager*.

³⁸ *Truppenwirtschaftslager*.

³⁹ See following paragraph.

⁴⁰ *Bevollmächtigter für den Holzbau*: plenipotentiary for construction in wood.

SS *Unterscharführer* Fränzen, paver
 SS *Unterscharführer* Gerhard, paver
 SS *Sturmmann* Krause, mason

used water and rain water collection channel, construction of bridges, railways for the above-mentioned Construction Offices.

Construction volume: 4,700,000 RM.

3) Water and Sewer

SS *Untersturmführer* Eggeling, agrarian engineer

SS *Schütze* Schwab, Tiefbau technician

SS *Rottenführer* Schuhknecht, stone-cutter

Civilian employee Wolf, smith.

Planning and realization of galleries for wells, water purification stations, provisional autoclave plant, elevated tanks, supply network as well as water supply for the above-mentioned Construction Offices.

Construction volume: 1,600,000 RM.

4) Melioration and Surveying

SS *Untersturmführer* Wallergang, agronomist

SS *Untersturmführer* Töffler, civilian engineer

SS *Rottenführer* Schmid, subforeman drainage

SS *Rottenführer* Dragoni, subforeman pumping

SS *Schütze* Fischer, surveyor

Planning and realization of repairs, administration of water and basins in the *Interessengebiet* of the Concentration Camp Auschwitz, implementation of a water savings plan, construction of a dam plant on the Sola and of a water supply for the fish tanks in the *Interessengebiet*, draining and pumping in the POW camp, building measurement for all construction projects, preparation of a new 1:2000 map, determination of the trigonometric network, tacheometry and traversing of the area of interest.

Construction volume: 14,700,000 RM.

5) Planning

SS *Untersturmführer* (F) Dejaco, architect

SS *Schütze* Gierisch, architect

SS *Schütze* Splitt, building designer

Civilian employee Werkmann, architect

Civilian employee Schimmel, construction expert

Civilian employee Walther, architect

Planning or [realization of] sketches, building designs, execution of designs in particular and of building designs of existing buildings and realization of the inventory designs for the Construction Offices concentration camp, POW camp, farming, industrial construction (Deutsche Ausrüstungs-Werke, Krupp, Deutsche Erd- und

Steinwerke) Main Economic Camp Auschwitz, Troop Economic Camp Oderberg, as well as for the construction of Construction Depot Auschwitz.

6) Raw materials and purchasing

SS *Unterscharführer* Wilk, buyer
 SS *Oberscharführer* Arloth, technical buyer
 SS *Unterscharführer* Bracht, buyer
 SS *Unterscharführer* Hoffmann, carpenter
 SS *Unterscharführer* Pruchnik, employee
 SS *Sturmmann* Kunert, foods buyer

Acquisition and planning of raw materials, raw materials requests, allocation of ID code, space for transport for all construction projects.

Construction Depot I

SS *Oberscharführer* Stiller, buyer
 SS *Unterscharführer* Holz, buyer

Taking on consignment, warehousing and administration, distribution of materials, machines and tools for all construction projects.

Construction Depot II

Civilian employee Niendorf, farmer

Administration of Construction Depot Posen.

7) Administration

SS *Scharführer* Betzinger, buyer
 SS *Unterscharführer* Giesenberg, buyer
 SS *Unterscharführer* Weislav, leather worker

Reporting, accounting, care of weapons, matters relating to accommodations.

Registry

SS *Unterscharführer* Putzker, hotel employee
 Civilian employee Uttinger, buyer

Telephone communication

SS *Rottenführer* Cerne, regional employee
 SS *Unterscharführer* Nitsche, stone-cutter

Ordnance

SS *Rottenführer* Steinert, smith

8) Transportation

SS <i>Scharführer</i> Kögel, driver	Use, maintenance, and repair of
SS <i>Sturmmann</i> Seitner	11 motor buses,
SS <i>Unterscharführer</i> Bergmann, driver	2 railcars,
	motor cars,
SS <i>Unterscharführer</i> Olschar, driver	72 construction machines
SS <i>Unterscharführer</i> Kling, driver	in addition to 45 horse-drawn carts.
SS <i>Sturmmann</i> Bärwolf, driver	
SS <i>Schütze</i> Depta, driver	
SS <i>Sturmmann</i> Rosenauer, driver	

9) Technical department

SS <i>Unterscharführer</i> Swoboda, electrotechnician	Planning and realization of the electrical installations, transformer station, transferred voltage monitoring station, heating stations, distance
SS <i>Sturmmann</i> Beck, expert mechanic	heating plant, machine construction for concentration camp, POW camp, farming, industrial construction, installation team and electric workshop with 165 inmates.
Civilian employee Bendorff, electrotechnician	
Civilian employee Jährling, heating technician	

10) Manpower deployment

SS <i>Unterscharführer</i> Hochscherf, testing employee	Assistance, lodgings, and employment, initially for 1,000 civilian workers.
SS <i>Unterscharführer</i> Pantke, manufacturing director in a furniture factory	Employment of inmates (approximately 8,000) for the concentration camp, POW camp, etc.
SS <i>Rottenführer</i> Steinstrasser, gardener	

11) Workshops

SS <i>Unterscharführer</i> Kywitz, head of shop	Management and supervision of the inmate workshops
SS <i>Schütze</i> Blanke, carpenter	(locksmith shop: 232 inmates)
SS <i>Rottenführer</i> Dengler, painter	(cabinet shop: 190 inmates)
Civilian employee Wachs, internal architect (transfer will be requested)	(glazier shop: 22 inmates)
	(paintery: 76 inmates)
	Invoicing, design, and details for internal finishing of all construction projects.

12) Carpentry and roofing shop

SS <i>Unterscharführer</i> Vieth, carpenter	Self-employed carpenters: 77
---	------------------------------

SS *Rottenführer* Lugert, carpenter (carpentry and roofing activities) inmates: 1,919; performing of carpentry work, maintenance work, barracks assembly.

13) Landscaping

SS *Unterscharführer* Kamann, gardener Realization of gardens for all construction projects.

Secretaries

Civilian female employee Quitzau, stenotypist

14) Statistics

vacant

CONSTRUCTION OFFICES

I. Construction Office of the Waffen-SS and Police Auschwitz, Concentration Camp Auschwitz and farming Auschwitz

Heads of Construction

SS <i>Unterscharführer</i> (F) Kirschnek, construction expert	a) Concentration Camp Auschwitz construction of the remaining new buildings and erection of 6 inmate accommodations, barracks of the provisional laundry house in the old Protection Camp.
Civilian employee Teichmann, construction assistant	
SS <i>Scharführer</i> Jäger, construction expert	15 new inmate buildings
SS <i>Unterscharführer</i> Oschinski, mason	5 security workshops for inmates, laundry house and reception building with disinfestations plant and bath for inmates, expansion of the slaughterhouse, bakery building, distance heating plant with pipes, emergency electrical generating plant, courtyard for the canine squad.
SS <i>Sturmmann</i> Lubitz, assistant construction help	3 accommodation barracks for <i>Führer</i> , building for commando and accommodation building for commando, garages for commando, entry building, economic building, accommodations for 1 st battalion housing development.
Civilian employee Lehmann, secretary	
SS <i>Hauptscharführer</i> Wiechmann, joiner	
SS <i>Schütze</i> Genur, designer	Construction volume: 20,030,000 RM.

b) Farming Auschwitz

II. Construction Office of the POW camp (carrying out of Special Treatment Auschwitz)Heads of Construction

SS <i>Unterscharführer</i> (F) Janisch, engineer	New construction, installation or expansion of accommodations (343 barracks), in addition to storehouse barracks, for laundry house, for supplies, disinfection, wash-houses, latrines, infirmary and <i>Blockführer</i> (158 barracks), 4 crematoria, 4 mortuary chambers, disinfection plant, entry building, guard building, warehouse, command building, security plant, camp subdivision, guard towers, 16 troop barracks, 6 workers' barracks, 6 latrine barracks, 11 barracks for supplies, offices and infirmary. Disinfection and sauna plant. 2 emergency electrical generator groups and 3 transformer buildings.
SS <i>Untersturmführer</i> Peetz, architect	
SS <i>Untersturmführer</i> Kastner, civil engineer	
SS <i>Hauptscharführer</i> Böttjer, carpenter	
SS <i>Oberscharführer</i> Kayser, works supervisor	
SS <i>Unterscharführer</i> Ulmer, designer	
SS <i>Schütz</i> Sihorsch, mason	
SS- <i>Sturmmann</i> Scheffel, mason	
Civilian employee Uhl, designer	
Civilian employee Lippert, secretary	
	Construction volume: 18,700,000 RM

III. Construction Office Industrial area Auschwitz

(Krupp factory halls, *Deutsche Ausrüstungswerke Auschwitz*, *Deutsche Erd- und Steinwerke Auschwitz*) as well as construction of the Construction Depot Auschwitz.)

Heads of Construction

SS <i>Sturmmann</i> Jothann, construction expert for above ground	Sheds, accommodation buildings, office buildings and other secondary plant for Krupp, 1 storage room and 1 drying room, silo barracks, etc., for Deutsche Erd- und Steinwerke Auschwitz. Sheds for the storage of construction materials, installation of the new construction depot with 7 warehouses and offices, camp for the civilian workers I and II with accommodation barracks for workers and latrines, etc.
SS <i>Unterscharführer</i> Penn, construction entrepreneur	
SS <i>Rottenführer</i> Wolff, mason	
Civilian employee Götsch, secretary	
	Construction volume: 6,700,000 RM.

IV.) Construction Office Main Economic Camp of the Waffen-SS and Police and Troop Economic Camp Oderberg

Head of Construction

SS *Untersturmführer* (F) Pollok

1 warehouse barracks with basement.
1 office barracks, potato bunkers for the HWL, expansion or broadening of the camp for the TWL Oderberg, in addition to technical assistance to the administrative offices.

Construction volume: 240,000 RM

V.) Construction Office Works and Estate Freudenthal and Estate Partschendorf

Heads of Construction

SS *Unterscharführer* Mayer, construction assistant

Civilian employee Partsch, secretary

Construction of 2 warehouse barracks for machines and fruit juices, 2 accommodation barracks for foreign civilian workers, various supplementary constructions and restructuring *in opera*, 4 double accommodations for agricultural workers, reconstruction and finishing work for the estates Freudenthal, as well as for the estate Partschendorf and for the 9 double accommodations for agricultural workers.

Construction volume: 1,030,000 RM.

This organization chart (see Table VII) covered 74 SS men and 16 civilian employees (see Table X).

In January 1943, the Central Construction Office was threatened with a drastic reduction in personnel. On the one hand, Kammler had informed Bischoff that he intended to send 44 Central Construction Office SS men “fit for active service” (*kriegsverwendungsfähige*)⁴¹ to the front. On the other hand, Höß had decided to transfer all Polish inmates working on the Central Construction Office to other tasks (see in this regard Section 2 of Chapter III). No doubt, Kammler requested the organization chart reproduced above from Bischoff precisely in view of this reduction. Bischoff, preoccupied by the consequences which this would have had for the activities of the Central Construction Office, attempted to keep at least the most important men. To this end, he compiled a

⁴¹ In the documents, this adjective is normally indicated by the initials “KV”.

list of functions of subordinates for Kammler, which Bischoff considered indispensable: SS *Untersturmführer* (F) Pollok, SS *Untersturmführer* (F) Eggeling, SS *Oberscharführer* Strang, SS *Unterscharführer* Wilk, SS *Unterscharführer* Bracht, SS *Unterscharführer* Vieth, SS *Unterscharführer* Swoboda, SS *Sturmmann* Beck, SS *Scharführer* Betzinger, SS *Unterscharführer* Pantke, SS *Untersturmführer* (F) Kirschnek, civilian employee Teichmann, SS *Untersturmführer* (F) Janisch, and SS *Sturmmann* Jothann.⁴²

The list of indispensable men eventually sent to Kammler, however, was drastically shorter and included only the heads of construction Eggeling, Kirschnek, Janisch, Jothann, and in addition the head of the carpentry shop Vieth.⁴³ On February 1, 1943, Bischoff was promoted to SS *Sturmbannführer*. In early July 1943, the Central Construction Office consisted of at least 63 persons, both SS men and civilian employees, as indicated by a list from July 2 listing personnel of that office having been issued a service bicycle.⁴⁴ Even Bischoff's wife had such a bike, without being a part of the Central Construction Office, of course.

On October 1, 1943, coinciding with the beginning of the fifth financial year of the war, SS *Sturmbannführer* Bischoff was replaced by SS *Obersturmführer* and specialist Jothann. For local bureaucratic reasons, transfer of office was dated January 1, 1944.⁴⁵ Bischoff was promoted to Head of Construction Inspection of the Waffen-SS and Police "Silesia." Jothann had had a meteoric career, which had brought him in just ten months from the rank of SS *Sturmmann* to that of SS *Obersturmführer*.

We have only very few documents about the year 1944. On July 17, 1944, SS *Oberscharführer* Pollok, who had been recalled to an operational unit, left his post to SS *Obersturmführer* (F) Krauss.⁴⁶ The list of September 1, 1944, related to the service bicycles assigned to the members of the Central Construction Office contains 72 names, including 61 SS men and 11 civilian employees.⁴⁷

2. The Position of the Central Construction Office in the Hierarchy of Technical, Financial, Administrative, and Economic Institutions

The Auschwitz concentration camp initially represented the construction projects “SS accommodations and Concentration Camp Auschwitz” of the Waffen-SS and Police and, as such, depended for all its technical, financial, and administrative aspects on Office II – Constructions of the *HHB*, administered by SS *Oberführer* Kammler. Since the camp was located in the territory of the Reich, in Upper Silesia, it was subordinated to the inspection body of Office II, which had jurisdiction in that region, the Construction Inspection of the Waffen-SS and Police Reich East, headquartered at Posen, which, in November 1941, superintended the Central Construction Offices of Auschwitz, Danzig, Posen, and Breslau (see Table VI).

Regarding construction management (*Bauwirtschaft*), the construction projects (*Bauvorhaben*) of Auschwitz depended on the regional representative for the regulation of all constructions in defense district VIII, headquartered in Katowitz, which was the representative of *Reichsminister* Speer in his capacity as Plenipotentiary for the regulation of all construction projects (G.B.-Bau; see Table I). The realization of a construction project required as a first administrative step its classification in the list of priorities of the defense district to which it belonged (*Wehrkreisrangfolgenlisten*). The next required step was the construction authorization (*Baufreigabe*). According to the provisions of *Reichsminister* Speer of July 12, 1941, for the third financial year of the war, this authorization was initially issued by the control commission of defense district VIII – a body of Speer’s regional representative in defense district VIII – through presentation of a documentation consisting of a situation sketch (*Lageskizze*; Document 8), a description of the project (*Baubeschreibung*; Document 9), and an approximate cost calculation (*Kostenüberschlag*; Document 10),⁴⁸ later replaced by a proper cost estimate (*Kostenvorschlag*; see Document 10a). The project description could also be in form of a written explanatory report (*Erläuterungsbericht*; Document 11). Speer then assigned the construction volume, a term that also described the costs of the project.

At the beginning of the third financial year of the war, on October 1, 1941, the construction projects “SS accommodations and Concentration Camp Auschwitz” were included in Speer’s construction projects under reference number (G.B.-Bau Kennummer) “2 U Kattowitz 1.”⁴⁸ On January 20, 1942, the

⁴⁸ Letter from the head of Office II of the *HHB* to the Auschwitz *Bauleitung*, October 1, 1941. *RGVA*, 502-1-319, illegible page number on my photocopy.

number was changed to “2 Kattowitz 3001”.⁴⁹ The number relating to the construction of the future camp of Monowitz⁵⁰ was initially “0. Wo-E (Chem.) Katt. 3009”,⁵¹ but was later changed to “VIII E wo 19”.⁵² In June 1942, the G.B.-Bau reference number of Concentration Camp Auschwitz again changed to “VIII Up a 1”, in which the symbols had the following significance:

VIII = Roman letter of the defense district

Up = responsible for allocation of materials (*Kontingenträger*)

a = sector (*Sachgebiet*); there were 4 sectors:

a = armaments and military hospital construction

c = provisions and clothing

c = dwelling-place construction

d = general construction

1 = the rank of the district in the scope of the sector of the entity responsible for allocations and simultaneously an indication of urgency; the degree of maximum urgency was Grade 1. Grade 0 (zero) was no longer in use.

The new G.B.-Bau reference number was valid for the third financial year of the war and, in particular, for the period from April 1 to December 31, 1942.⁵³ In October 1942, the construction projects “POW Auschwitz” received the G.B.-Bau reference number “VIII Up a 2,” and the future Monowitz camp was designated “VIII E Ch-m/wo 19.”⁵⁴

Starting on February 1, 1942, the Auschwitz Central Construction Office was subordinated in financial, technical and administrative matters to Office Group C—Construction Projects of the *WVHA*, directed by SS *Oberführer* Kammler, while it continued to depend on *Reichsminister* Speer for construction management. Office C/I (general construction tasks) of the *WVHA*, headed by SS *Sturmbannführer* Sesemann, exercised control over construction projects and cost estimates of ordinary construction projects. Office C/III (technical areas), commanded by SS *Sturmbannführer* Wirtz, carried on the same activity

on technical construction projects. The management of Construction Inspections of Office II of *HHB* was taken over by Office C/V (Central Construction Inspection), which developed a double activity: inspection, through Office V/1a (Construction Inspection, Central Construction Offices und Construction Offices), and financial, through Office V/2a (Budget and Invoicing). The Construction Inspection of the Waffen-SS and Police, Reich East, which controlled the Auschwitz Central Construction Office from November 1941 onward, depended on these two agencies. Later this control function was taken over by the Construction Inspection of the Waffen-SS and Police Silesia, headquartered in Kattowitz, which was formed in the second half of 1943 and was likewise subordinated to Office C/V of the *WVHA*. Regarding construction management, the Central Construction Office was subject to Speer's authority through two of his subordinate officials: Speer's regional representative in Defense District VIII, headquartered in Kattowitz, which dealt with administrative matters (classification, authorization, etc.), and Speer's regional representative in Defense District VIII, headquartered in Breslau, which was in charge of allocation of materials. On September 14, 1942, Speer reorganized his department in the following manner:

Speer was plenipotentiary for the regulation of construction management in the framework of the German four-year plan. His principal agency, headquartered in Berlin, was subdivided into four sections: construction management, development of armaments, allocation of materials, and transport of construction materials. Speer's regional representatives in a German state (*Gau*) carried the name *Gau* representative (*Gaubeauftragter*); defense districts were renamed to districts of armaments inspection, and regional representatives for the regulation of construction were renamed to the construction plenipotentiary of *Reichsministerium* Speer in the district of armaments inspection. The 21 different districts received Roman numerals. The Central Construction Office of Auschwitz was within District VIII and was therefore subordinate to Speer's regional representative in Kattowitz for administrative matters, and to Speer's construction plenipotentiary in the district of armaments inspection VIII, headquartered in Breslau, for the allocation of materials (see Tables II and IV). The Central Construction Office directed its construction materials requests to the materials-allocation office of the latter institution, which forwarded them to the central office in Berlin. For the transport of construction materials, the transport section of Speer's central office issued GB Bau sheets (see Document 12).

In technical, financial, and administrative matters, construction activities in annexed and occupied territories depended on the respective Construction Inspections, which were organized as follows:

- Central Construction Inspection for the East
- Construction Inspection of the Waffen-SS and Police East–North
- Construction Inspection of the Waffen-SS and Police East–Center
- Construction Inspection of the Waffen-SS and Police East–South
- Construction Inspection of the Waffen-SS and Police East–Tiflis.

The construction management, on the other hand, was controlled by an office headed by an SS manager, Group C–Construction, and located at the local Higher SS and Police Headquarters, organized as follows:

- Higher SS and Police Headquarters in the Generalgouvernement (occupied central Poland), headquartered in Krakow
- Higher SS and Police Headquarters in Ostland, headquartered in Riga
- Higher SS and Police Headquarters in Russia–Center, headquartered in Mogilev
- Higher SS and Police Headquarters in Russia–South, headquartered in Kiev
- Higher SS and Police Headquarters in Serbia, headquartered in Belgrade.

Norway had its own Construction Inspection of the Waffen-SS and Police and its own Higher SS and Police Leader in Oslo.

This organizational structure remained unchanged at least until the end of February 1944.⁵⁵

Chapter II: Administrative Activities

1. Powers and Authority

According to the provisions of Kammler's letter of June 30, 1941, quoted in the preceding chapter, a Central Construction Office consisted of several construction projects (*Bauvorhaben*), each containing several construction sites (*Bauwerke*, abbreviated: *BW*) and several *construction sites* formed a construction sector (*Bauabschnitt*; abbreviated: *BA*). A Construction Office, by contrast, consisted of just one single project. As already noted, first the New Construction Office and later the Construction Office was initially responsible for one single project called "SS accommodation and Concentration Camp Auschwitz." In March 1942, there were four construction projects:

1. SS Accommodation and Concentration Camp Auschwitz
2. POW camp
3. Main Industrial Camp
4. D.A.W. (Deutsche Ausrüstungswerke)⁵⁶

In June 1942, the construction projects of the Central Construction Office had increased to eight:

1. Concentration Camp Auschwitz
2. SS Accommodation Auschwitz
3. Industrial Zone Auschwitz (Deutsche Ausrüstungs-Werke, Deutsche Erde- und Steinwerke)
4. Auschwitz farms
5. Main Industrial Camp Auschwitz with outpost Oderberg
6. POW camp Auschwitz
7. Estate Partschendorf near Freudenthal⁵⁷
8. Estate Freudenthal

⁵⁶ The building management (*Bauführung*) of this industrial complex was taken over by the Central Construction Office by order of Kammler on January 21, 1942. File memo of the *Zentralbauleitung*, February 25, 1942. *RGVA*, 502-1-24, p. 427.

⁵⁷ Ertl's "Reisebericht...", op. cit. (note 33), p. 16.

Starting in November 1942, as seen in the preceding chapter, the administration of these construction projects was assigned to five Construction Offices, combining construction project Concentration Camp Auschwitz and Industrial area, as well as Estate Partschendorf near Freudenthal and Estate Freudenthal.

The construction sectors consisted of several construction sites. For example, the entire Birkenau camp was subdivided into three sectors: *BA* I, II, and III. Until the beginning of 1942, the constructions of the Central Construction Office were only indicated by their designation: tank facility, workshops, leader homes, etc. On March 31, 1942, a new classification was introduced for construction project "Concentration Camp Auschwitz": an identification number preceded by the abbreviation *BW* was affixed to every worksite. In all the administrative documents relating to a single worksite it was necessary to note the abbreviation "BW 21/7b (*Bau*) 13" (in which 21/7b was the expense item, and (*Bau*) 13 the title). POW, Main Industrial Camp, and *Deutsche Ausrüstungs-Werke* (DAW) had their own numbering system.⁵⁸ For the construction project POW camp, this classification had already been introduced in February.⁵⁹ The construction sites were subdivided into purely provisional constructions (*reine Behelfsprovisorien*), provisional constructions (*Behelfsbauten*) and definitive constructions (*endgültige Bauten*). For every construction site, it was necessary to keep an expense book (*Bauausgabebuch*) described in Section 4.

A construction site was not a single construction, but the totality of constructions of the same type with the same intended purpose. For example, BW 33 consisted of 33 barracks for personal effects (*Effektenbaracken*).⁶⁰ In the period of maximum development, the Central Construction Office came to have over 300 construction sites (see Tables XIII and XIV).

2. Construction Site Consignment Decision

When a construction site was completed, the Central Construction Office drew up a turnover document (*Übergabeverhandlung*; Document 13), by means of which the construction site was turned over to the camp command (*Kommandantur*). The following documents were annexed to the consignment decision,

⁵⁸ "Aufstellung der Bauwerke (BW) für die Bauten, Außen- und Nebenanlagen des Bauvorhabens Konzentrationslager Auschwitz O/S," March 31, 1942. *RGVA*, 502-1-267, p. 3

⁵⁹ "Baufristenplan für Bauvorhaben Kriegsgefangenenlager der Waffen-SS Auschwitz," February 9, 1942. *RGVA*, 502-1-22, p. 9.

⁶⁰ "Bauantrag zum Ausbau des Kriegsgefangenenlager der Waffen-SS in Auschwitz O/S. Errichtung v. 5 Effektenbaracken BW 33." March 4, 1944. *RGVA*, 502-1-230, pp. 103-108. "Bauantrag zum Ausbau des Kriegsgefangenenlager der Waffen-SS in Auschwitz O/S. Errichtung von 25 Stk. 5 Effektenbaracken (BW 33)." March 4, 1944. *RGVA*, 502-1-230, pp. 95-100.

which was transmitted to the *Kommandantur* in five copies with a cover letter from the head of the Central Construction Office:

- a list of building equipment (*Einrichtungsgegenstände*)
- a series of plans, on a scale of 1:200 (*Satz Baupläne – Maßstab 1:200*; Document 17)
- a list of all the firms employed in the construction with an indication of the responsibility and duration of the warranty (*Verzeichnis über sämtliche am Bau eingesetzten Firmen mit Angaben der Haft- und Garantienzeiten*)
- a chimney-testing attestation (*Bescheinigung über Schornsteinabnahme*, Document 14)
- a description of the building (*Gebäudebeschreibung*; Document 15)

The list of building equipment was reported on preprinted tables: the location was indicated on the rows, the presence of the objects was indicated in the intersecting columns (see Document 16).

3. Activity Reports

All the activities of the Central Construction Office were accurately recorded in a vast series of administrative documents. The most numerous documents naturally related to the construction activities in the strict sense. These are the most important lists.

1. Activity reports (*Tätigkeitsberichte*; Document 18); weekly report drawn up by Schlachter and addressed to the command (*an die Kommandantur*) of the Concentration Camp Auschwitz. These reports cover the period from June 14, 1940, to August 23, 1941, and describe all the activities of the SS New Construction Office, then of the Construction Office, under four headings: worksite activities (*Baustellenbetrieb*), materials purchasing (*Einkauf*), planning (*Planung*), and accounting (*Buchhaltung*). This general report was later replaced by specific reports drawn up by the head of construction of the various sections of the Central Construction Office or by officials of the individual worksites:

- Report on the activities of underground construction and surveying department (*Tätigkeitsbericht der Tiefbau- und Vermessungsabteilung*): report compiled monthly, starting in January 1942 (report compiled on February 2, relating to the month of January) and related to the following

construction sites: road construction, water supply, surveying, railroad construction, drainage.⁶¹

- Activity report: monthly report starting in January 1942⁶² and compiled by SS *Sturmmann* Heinz Lubitz, head of construction of the following construction sites: new construction of inmate accommodations (5 buildings), inmate kitchen, delousing facility, construction offices garage, garage for transportation department, concrete and cabinet workshops, construction office barrack (terminated in January 1942), accommodation barracks for command post, washing barracks.
- Activity report for landscaping: monthly report starting in January 1942 and compiled by SS *Sturmmann* Dietrich Kamann.⁶³
- Activity report: monthly report compiled by civilian employee Heinrich Teichmann, head of construction of the following construction sites: expansion of protective-custody camp, reception building and inmate bath, laundry, slaughterhouse, concrete workshops, reinforcement works at horse stable barracks at *Deutsche Ausrüstungs-Werke*.⁶⁴
- Activity report of the technical department: monthly report since February 1942 on the installation of the electrotechnical plant at various construction sites.⁶⁵
- Activity or construction report for above-ground construction: monthly report starting in February 1942 and compiled by SS *Sturmmann* Werner Jothann, head of construction of the following construction sites: economics barrack, bakery, accommodations for civilian employees, Praga Birkenau, refurbishment of “*Deutsches Haus*,” Troop Logistics Camp, accommodations for civilian employees of the construction office, canteen collective, accommodations for officers and NCOs.⁶⁶
- Activity report of SS *Unterscharführers* Kirschnek, head of construction department above-ground: monthly report starting in May 1942; Kirschnek was head of construction of the following construction sites: command post and adding stories (three buildings).⁶⁷
- Activity report of SS *Ustuf.* (F) Kirschnek, head of construction of protective-custody camp and farming construction projects: Kirschnek’s first

⁶¹ *RGVA*, 502-1-24, pp. 437f. Illegible signature.

⁶² “Tätigkeitsbericht für den Monat Januar 1942.” *RGVA*, 502-1-24, pp. 423f.

⁶³ *RGVA*, 502-1-24, pp. 426f. Only known report, handwritten, dated February 4, 1942.

⁶⁴ “Tätigkeitsbericht für den Monat Mai 1942,” dated May 29. *RGVA*, 502-1-24, p. 301. Only known report.

⁶⁵ “Tätigkeitsbericht der Techn. Abteilung für Februar [1942].” *RGVA*, 502-1-24, illegible page number on my photocopy. Only the first page of this report, which is handwritten, remains.

⁶⁶ *RGVA*, 502-1-24, pp. 417f. Report dated March 2, 1942.

⁶⁷ *RGVA*, 502-1-24, pp. 302. Report dated May 29, 1942.

monthly report dates back to December 1942. In this capacity he was concerned with BW 7a, 20 K, 20 M, 20 N, 20 O, 20 Q, 43, 20 D, 64, 68 A, 76, 26 B, 71 A, 63, 26 B, 71 B, 32 H (camp for Italians, taken over from Teichmann), 4 B, K, 68 B, 66 E.⁶⁸ Starting in 1943, Kirschnek compiled quarterly reports.

- Activity report for road construction: monthly report starting in December 1942 and compiled by SS *Rottenführer* Walter Schuhknecht, head of construction of all roads inside and outside the camps.⁶⁹
- Report on the state of construction projects of the POW camp: two-weekly reports starting in January 1942 and compiled by SS *Untersturmführer* Otto Kayser, head of construction responsible for barracks and other buildings in the POW camp.⁷⁰
- Construction report of drainage department: monthly report starting in November 1942 and compiled by SS *Untersturmführer* Bernhard Wallerang, responsible for pipe-laying work in Construction Section II and III of the POW camp and for drainage in the area of interest.⁷¹

All the above-mentioned reports were sent to the Head of the Central Construction Office, who used them to compile the following reports:

2. Construction deadline schedule (*Baufristenplan*): monthly report first compiled by head of constructions (Schlachter, Bischoff) and then by the Head of the Central Construction Office (Bischoff, Jothann), and initially addressed to Office II 3/2 of the Main Office Budget and Construction, then to Office C V/3 of the *WVHA* with related cover letter (see Document 19).

The reports were written based on service order no. 3 of Office II of the Main Office Budget and Construction dated June 30, 1941. For every construction project a suitable report was compiled. The first construction deadline schedule, relating to the construction project Concentration Camp Auschwitz, is dated August 10, 1941;⁷² the last is dated December 15, 1943.⁷³ For every construction project the construction deadline schedules bore the number of the con-

⁶⁸ *RGVA*, 502-1-24, pp. 24-24a. Report dated December 30, 1942.

⁶⁹ "Tätigkeitsbericht Straßenbau für den Monat Dezember 1942." Report dated December 31, 1942. Schuhknecht was also concerned with the roads in the camp for the Italian civilian workers ("Straße im Italienerlager"). *RGVA*, 502-1-24, pp. 25-26. Only known document.

⁷⁰ The handwritten report dated February 3, 1942, relating to the month of January refers exclusively to the barracks (Baracken). *RGVA*, 502-1-24, p. 425.

⁷¹ "Abteilung Kulturbau. Baubericht für die Zeit vom 1. November bis 30. November 1942." Report dated November 30, 1942. *RGVA*, 502-1-24, pp. 58-59. Only known report.

⁷² "Baufristenplan für Bauvorhaben K.L. Auschwitz," by Schlachter, dated August 10, 1941. *RGVA*, 502-1-22, p. 1.

⁷³ "Baufristenplan für das Bauvorhaben Kriegsgefangenenlager der Waffen-SS und Polizei Auschwitz," by Jothann, December 15, 1943. *RGVA*, 502-1-320, p. 68.

struction site, with a graphic representation of the respective degree of completion in terms of percentage (a segment passing through the columns of the months with the related number written above). Until May 1942, the number of the civilian workers and inmates employed in the works was given as well.

3. Construction report: monthly report compiled by the Head of the Central Construction Office (Bischoff) and addressed to the commando (*an die Kommandantur*) of Concentration Camp Auschwitz with related cover letter. The first construction report was compiled by Ertl on November 10, 1941, and refers to the situation on November 1. The series of construction reports kept in the archive begins with the subsequent report for the month of November, compiled by Bischoff on December 4, 1941 (see Document 20). These reports contain a detailed description of the individual worksites (*Baustellenbeschreibung*); the construction sites included in the same sites were arranged on the basis of the various construction projects.

The other sections of the Central Construction Office, which also carried on various tasks, also regularly compiled reports on their activities; of particular importance are the reports from the motor vehicle section:

4. Activity Report of the transportation department of the Central Construction Office of the Waffen-SS and Police Auschwitz O/S: a very scantily report starting in February 1942;⁷⁴ starting in May 1942, the report compiled by head of transportation department SS *Scharführer* Kurt Kögel, (*Tätigkeitsbericht der Fahrbereitschaft vom...*), became much more detailed, with an indication of the average number of vehicles utilized, the number of transports dispatched, the amount of fuel consumed, repairs performed, etc. (see Document 21).

Reports relating to the utilization of inmate labor will be dealt with in the next chapter.

4. Financial Activities. Acquisition of Machinery, Rendering of Services, and Payments

The Central Construction Office used numerous civilian firms, including for the acquisition of various machinery and materials and for the rendering of services. Upon request of the office responsible for a given construction site, the firm sent a cost estimate (*Kostenanschlag*; Document 22). If the offer (*Angebot*) was

⁷⁴ "Fahrbereitschaft der Bauleitung. Kurzer Tätigkeitsbericht für den Monat Februar 1942." *RGVA*, 502-1-24, p. 410., dated February 23, 1942. There is also a "Kurzer Tätigkeitsbericht für den Monat Februar 1942 über den durchschnittlichen Einsatz der Gespanne" by SS Sturmmann Gertl, March 2, 1943. *RGVA*, 502-1-24, p. 409.

accepted, the Central Construction Office confirmed the order in writing (*Auftragserteilung*).

Shipment by rail transport required a bill of lading (*Frachtbriefe*; Document 23), which the Central Construction Office sent to the firm with the related code numbers (*Speer-Marke*; also Document 23). The bill of lading indicated the recipient, the shipping firm, and the content of the load. The *Speer-Marke* bore the figures 0, I, II and III, corresponding to the various priorities. The figure “0” corresponded to the maximum degree of urgency.⁷⁵

The machinery or materials were sent to Auschwitz by the company with a shipping notice (*Versandanzeige*; Document 24), indicating the date of shipment, the number of the railway carriage loaded, and a detailed description of the weights loaded and the relative weight. The date of arrival of the shipping notice at the camp was normally indicated by a stamp on the first page (on the lower left) of this document, and countersigned by the head of the Central Construction Office. After arrival of the freight car, the materials administration (*Materialverwaltung*) carried out a control of the goods unloaded from the car, and if they corresponded to the shipping notice, conformity was attested to on the last page of this document by means of the stamp “*Materialverwaltung Richtigkeit bescheinigt*” or “*richtig erhalten Materialverwaltung*”, and the date of entry into the warehouse, which was indicated by means of a stamp on the upper (right) part of the document.

Normally, the firm later sent the Central Construction Office a partial invoice (*Teilrechnung*; Document 25) with a description of the goods (or of the work performed) according to the costs indicated in the cost estimate. The accounting department subjected the invoice to a calculation check, indicated by the stamp “*Nachgerechnet am...*” followed by the date of the check, and a specialist technical control, attested to by the stamp “*Fachtechnisch richtig*,” with the date and signature of the official employed to do so. If everything was in order, the section head certified the correctness of the amount by means of the stamp “*Richtig und festgestellt auf...*” with an indication of the amount and the signature.

Based on this certification, the accounting department issued one or more orders of payment on account (*Abschlagzahlung*; Document 26). The firm then sent the Central Construction Office the final invoice (*Schlußrechnung*; Document 27), which indicated both the payments on account already made by the SS administration and any possible cost variations from the cost estimate that had occurred subsequently. After the above-described checking procedure, the accounting department issued a final order of payment (*Schlußabrechnung*;

⁷⁵ Letter from Topf to Bauleitung der Waffen-SS und Polizei Mauthausen/Obedonau, October 14, 1941. BAK, NS 4 Ma/54.

Document 28), which stated the date of the commission or task entrusted to the firm, the amount of the related cost estimate, the resulting deductions from the final invoice, and the remaining amount due and payable.

Payments were made by means of bank check. The office in charge of this was initially Office Treasury II of the Main Office Budget and Construction, *i.e.*, Department Office Treasury II/2/4 of the Main Department II/2 Accounting. After the formation of the *WVHA*, responsibility passed to the Treasury of the Construction Inspection of the Waffen-SS and Police Reich East, headquartered in Posen. Starting on January 1, 1944, the payments were made by the Treasury of the Local Administration Auschwitz O/S, *i.e.*, the Auschwitz camp administration.

A separate accounting was kept for each construction site. Every construction site had a disbursement book for construction projects (*Bauausgabebuch*; Document 29), the front of which indicated the name of the Construction Office, the construction project, the construction site (number and name), the location, the administration (*Haushalt*) and the current year, the chapter (*Kapitel*), and the title (*Titel*). It followed the declaration of the number of pages of the book and an indication of the period to which the records referred. The disbursement book for construction projects was subdivided into various columns, indicating: 1) progressive number, 2) date of payment by SS administration, 3) firm to which payment was credited, 4) reason for payment, 5) amount of payment. In the subsequent columns I-XXXI the amount reported in Column 5 was broken down based on the type of service (excavation work, masonry work, plastering and fill work, etc.). The column "*Abschlagsauszahlungen*" indicated payments on account already made. The monthly accounting (*Gesamtausgabe*) was calculated adding the amount of the payments on account, registered in the above-indicated Column 5, to the sum of the payment in the same column. The disbursement book for construction projects therefore recorded all the firms having worked on a construction site as well as the services rendered giving rise to the remuneration received.

5. Correspondence and Archiving

5.1. Outgoing Mail

Until the beginning of October 1941, the letters written by the SS New Construction Office and later by the Construction Office, bore, in addition to the date, only the initials of those who wrote them, located in the upper left-hand part of the page, before the beginning of the text. For example, in one of the first letters from the SS New Construction Office to the Erfurt company Topf

& Söhne, the initial “Ur/W.” appears, which means “Urbanczyk/Wolter“. Other initials appearing in the correspondence from this period are “Ar.” (Arloth), “Wi.” (Wilk), “Schl” (Schlachter), “Th.” (Thoma), “Tei.”, (Teichmann).

From the beginning of October 1941, a new system of mail registration was introduced: the initials of the person writing the letter was preceded by the words “Bftgb.Nr”, accompanied by two numbers, separated by a slash. For example, in the letter dated May 8, 1942 (Document 19), the following wording appears: “Bftgb.Nr.7285/42/Wo/Lp.”, which means:

Bftgb. = *Briefstagebuch*: protocol book

Nr. 7285: sequential protocol number

42 = 1942; current year

Wo/Lp. = Wolter/Lippert.

The following abbreviations then appeared beneath this wording and prior to the text proper:

Betr.= *Betreff*, object

Bzg. = *Bezug*, reference

Anlg. = *Anlagen*, annexes.

Starting in October 1941, the number of the protocol book proceeded sequentially through the succeeding years: on December 8, 1944, this had reached 58,638.

The letters were drawn up in several copies, which were distributed to various interested camp officials. This distribution (*Verteiler*) was indicated at the end of the letter, at the lower left (see Document 31), with the name of the recipient of the copy, officials or offices. The officials were mentioned by name (for example, SS Ustuf. Pollok, Z.A. Jährling) or by post (for example, Bauführer K.G.L., Sacharbeiter); the offices were obviously very numerous (for example, Bauleitung K.L., Bauleitung K.G.L., Rechnungslegung, Bauwirtschaft, Werkstättenleitung, Rohstoffstelle, Handakte, Häftlingseinsatz, Bauhof, Planung, etc.). One copy was always sent to the archive (*Registratur*). Every construction site had its own file, and the copy of the letter intended for it bore the wording “*Registratur BW*” or “*Registratur Akt BW*,” followed by the number of the construction site.

5.2. Incoming mail

Until the beginning of November 1940, the mail was registered with a stamp indicating the date and time of registration, as in the following example :

E i n g e g a n g e n - 6. VI.40/15-16 Uhr Erl.....

Received
6 June 1940/15-16 hr.
Completed.....

Starting in the beginning of November until January 31, 1942, a new articulated stamp was introduced:

SS - N e u b a u l e i t u n g			
	Eingang		
Rechnungs- legung A	Hochbau Abtlg.	Tiefbau Abtlg.	Landmesser Abtlg.

This stamp, indicating the four sections into which the SS New Construction Office was subdivided, continued to be used even after this was promoted to the rank of Central Construction Office.

On February 1, 1942, this stamp was replaced by another, bearing the indication of the ten sections of the Central Construction Office:

Zentralbauleitung der Waffen-SS und Polizei Auschwitz, O.S.				
Dienststellenleiter		Eingang		Stellvertreter
Hochb. Abtlg.	Tiefb. Abtlg.	Planung Abt.	Vermess. Abt.	Techn. Abtlg.
Kaufm. Abtlg.	Buchhaltg.	Rohstoff Abt.	Mat. Ver- waltg.	Fahrbereitsch.

The arrival date of the letter was stamped into the received box (*Eingang*). In the box “*Dienststellenleiter*” the head of the Central Construction Office wrote his initials. In the box “*Stellvertreter*” the sequential protocol number was written by hand, followed by the current year. By December 5, 1944, the registration had reached 58,556.

Chapter III: The Working Organization

1. Allocation of Inmates to the Central Construction Office for Work

The construction work of the Auschwitz construction project were materially carried out by two groups: the inmates and private civilian firms. The Central Construction Office, which supervised both groups, had a permanent group of inmates at their disposal. The inmates were organized into *Kommandos* (crews) assigned to various offices according to their administrative structure. A few examples would be the surveying *Kommando*, the construction office *Kommando*, the *Kommandos* for workshops, etc. These *Kommandos* consisted primarily of skilled workers (*Facharbeiter*) who carried on specific tasks. Inmates employed as unskilled workers (*Hilfsarbeiter*) were assigned to individual worksites or worked at the factories of private firms, even if organized into *Kommandos*. Only a few of them assisted the skilled workers of the Central Construction Office. The formation of a *Kommando* required the authorization of the camp commandant. The inmates were made available by the Department of Labor Deployment of the Concentration Camp Auschwitz. The Department of Labor Deployment later became Department IIIa, directed by SS *Obersturmführer* Heinrich Schwarz. The Office of Labor Deployment of the Central Construction Office then provided for the sorting of the inmates into the various *Kommandos* and various worksites. For any inmate employed in a working activity, the Central Construction Office had to pay the camp administration a flat rate of 0.30 RM for more than 4 working hours and 0.15 RM for less than 4 hours. The administration compiled a monthly schedule for the payment request (*Forderungsnachweis*), which was sent to Office D II/3 of the *WVHA*. For each individual job the administration issued regular invoices to the Central Construction Office (see Document 30). Starting on June 1, 1943, the daily rate paid by private firms for the use of inmates' labor was 4 RM per hour for skilled inmate workers, 3 RM per hour for unskilled workers, and 2 RM per hour for female inmates.⁷⁶

⁷⁶ Letter from Chef des Amtes D II of *WVHA* "an Verschiedene," May 7, 1943, *RGVA*, 502-1-8, p. 51, and "Hausverfügung Nr. 120," by Bischoff, June 29, 1943, *RGVA*, 502-1-25, p. 157.

The Department of Labor Deployment, directly subordinate to the command of Concentration Camp Auschwitz (*Kommandatur*), directed the working employment of the inmates, both for the assignment to jobs and for the withdrawal of inmates from the latter in view to new assignments. From this point of view, the Central Construction Office depended completely on the Department of Labor Deployment. On occasion the relations between these offices became strained. For example, on April 29, 1943, SS *Obersturmführer* Schwarz responded with a severe letter to Bischoff's written complaints to the camp command after the Department of Labor Deployment made only females and sick inmates ("nur Frauen und kranke Häftlinge") available to the Central Construction Office.⁷⁷ It also happened occasionally that the two offices competed for a single man, as in the case of inmate no. 46,106.⁷⁸

The Central Construction Office approached this office not only to request camp inmates from Auschwitz, but also from other camps; in this case, the Department of Labor Deployment forwarded the request to Office D II of the *WVHA*.⁷⁹ But it also happened that the Central Construction Office had to transfer inmates to other camps. For example, on October 5, 1944, Jothann was required by Department IIIA to make 260 inmate masons and carpenters available for transfer to the Groß-Rosen camp.⁸⁰

2. The Inmates of the Central Construction Office

In January 1943, Höß communicated to Bischoff his decision to withdraw all Polish inmates from the staff of the Central Construction Office in the near future. Concerned with the difficulties this could have created in his offices – all the more so since he soon also faced the loss of half of his civilian employees – Bischoff asked the camp commandant to be allowed to keep at least the skilled workers who, at that time, could not be replaced.⁸¹ These initially comprised

⁷⁷ Letter from SS *Obersturmführer* Schwarz to Zentralbauleitung through Kommandatur of K.L. Auschwitz, April 29, 1942. *RGVA*, 502-1-256, pp. 217f.

⁷⁸ The Jewish inmate no. 46,106, a Diesel motor mechanic, had been assigned by the head of the Arbeitsdienst, first to the Fahrbereitschaft of the Zentralbauleitung, then to the Arbeitskommando of the D.A.W., whence he was illegally re-assigned to the Fahrbereitschaft, but the *Oberkapo* of the Arbeitskommando of the D.A.W. had taken him back, arousing the protests of the Zentralbauleitung. Letter of the Arbeitsdienstführer SS *Oberscharführer* Jakob Fries to the Arbeitsdienstführer SS *Obersturmführer* Schwarz, September 6, 1942. *RGVA*, 502-1-256, p. 201.

⁷⁹ This was naturally true even for the other sections of the camp which used inmates. For example, on January 8, 1943, Schwarz asked Amt D II of the *WVHA* for approval for the allocation, for 1943, of 1,300 inmates for the Landwirtschaft section of the K.L. *RGVA*, 502-1-56, p. 272.

⁸⁰ Letter from Zentralbauleitung to Abteilung IIIa, October 5, 1944. *RGVA*, 502-1-256, p. 92.

⁸¹ Letter from Zentralbauleitung to Lagerkommandant SS *Obersturmbannführer* Höß, January 20, 1943. *RGVA*, 502-1-60, pp. 44.

685 inmates, subdivided among the various sections and Construction Offices of the Central Construction Office, but then increased to 789 (see Document 31). On February 16, at the request of the Department of Labor Deployment of the Main Camp to SS *Unterscharführer* Weislaw, Bischoff compiled a list of names and a numbered list indicating the number of Polish inmates still employed in the Central Construction Office – 379 persons – including 39 at the construction depot, 239 at workshops, 16 in the transportation department I and II, and 85 in the construction office.⁸² The list contained the names of all inmates employed in the construction office – 96 persons, including 85 Poles, 8 Czechs, one Russian, one Polish Jew, and one Czech Jew – indicating their registration number, with first and last name, profession, section in which they were employed, and nationality (P = Polish, PJ = Polish Jew, C = Czech, CJ = Czech Jew, R = Russian; see Document 32). In the cover letter, Bischoff specified that this personnel list was absolutely indispensable for the enormous construction projects of the Central Construction Office.⁸³ Notwithstanding this, the greater part of these inmates were transferred, so that many *Kommandos* were drastically reduced. Bischoff was therefore compelled to forward to Department IIIa a request for masons, blacksmiths (*Eisenbieger*), whitewashers, electricians, carpenters, technicians, to be withdrawn from among the new arrivals.⁸⁴ Due to this lack of personnel, also caused by transfer into combat units of various SS men from the Central Construction Office, Bischoff had had to request inmates even for office work.⁸⁵ On April 8, Bischoff sent a new list of names of 105 skilled inmate workers to Department IIIa, announcing that the Central Construction Office would no longer be able to carry out its construction tasks, if these inmates would be transferred as well.⁸⁶

The outcome of this request is unknown, but on December 24 Department IIIa received a request for 30 inmates – technicians and engineers – for the Construction Office of the POW camp.⁸⁷

Only fragmentary information is available on the individual *Kommandos*.

On September 30, 1942, Bischoff requested 100 pairs of special shoes for the inmate column assigned to cover roofs (*Häftlingsdachdeckerkolonne*) from

⁸² “Zusammenstellung,” *RGVA*, 502-1-60, p. 24. See Document 31.

⁸³ Letter from Zentralbauleitung to 1. Schutzhaftlagerführer of K.L. Auschwitz SS *Hauptsturmführer* Aumeier, February 16, 1943. *RGVA*, 502-1-60, p. 23.

⁸⁴ Letter from Zentralbauleitung to Abteilung IIIa, March 16, 1943. *RGVA*, 502-1-256, p. 162.

⁸⁵ Letter from Zentralbauleitung to Abteilung IIIa, March 9, 1943, relating to four inmate stenotypists. *RGVA*, 502-1-256, p. 163.

⁸⁶ Letter from Zentralbauleitung to Abteilung IIIa, April 8, 1943. *RGVA*, 502-1-256, pp. 158-161.

⁸⁷ Letter from Zentralbauleitung to Abteilung IIIa, December 24, 1943. *RGVA*, 502-1-256, p. 119.

Office V of the *WVHA*, since the previously issued hobnailed boots pierced the tar paper used to waterproof the roofs.⁸⁸

In May 1943, the surveying *Kommando* had 29 inmates. On May 20, 1943, three of them escaped in Raisko (Jarzekowski, no. 115, Rotter, no. 365, and Chybinski, no. 6810), and the entire *Kommando* was confined to barracks in the camp.⁸⁹ During the following days, six companions of the escaped inmates were confined to prison in the main camp (Bunker 11), and Bischoff reported to Höß to put pressure on the Political Department (*Politische Abteilung*) to have them released.⁹⁰

Due to their skills, the inmates of the Central Construction Office were considered important and enjoyed distinguished treatment. In a report to Kammler dated July 13, 1943, Bischoff wrote that “*due to the rain on Thursday, July 8, all labor kommandos of the POW camp were ordered to return to their barracks at 12 o’clock, and on Friday, July 9, they did not go out at all.*”⁹¹

On November 10, 1943, Jothann asked Department IIIa to grant supplementary rations for the concrete *Kommando*, which was engaged in “*urgent and heavy labor on the construction of subterranean air-raid shelters.*”⁹²

Starting on June 1, 1943, Himmler’s directive to grant production premiums (*Leistungsprämien*) to the inmates came into effect.⁹³ The premiums consisted of purchasing coupons to be used at the inmate canteen (*Häftlingskantine*). Between July 1943 and November 1944, inmates received premiums for a total value of 214,119 RM,⁹⁴ broken down as follows:

1943	REICHSMARK	1944	REICHSMARK
July 16-31	7,114	January	24,941
August	19,602	February	11,377
September	11,207.50	March	12,327.50
October	20,355	April	13,055
November	33,360	May	16,472
		August	19,084
		October	16,389
		November	8,835

⁸⁸ Letter from Bischoff to Chef of Amt C V of *WVHA*, September 30, 1942. *RGVA*, 502-1-265, p. 11.

⁸⁹ Aktenvermerk, May 21, 1943. *RGVA*, 502-1-60, p. 67.

⁹⁰ Letter from SS *Sturmabführer* Bischoff to Lagerkommandant of K.L. Auschwitz SS *Oberstufmannführer* Höß, May 29 1943. *RGVA*, 502-1-60, p. 71.

⁹¹ *RGVA*, 502-1-8, p. 37.

⁹² *RGVA*, 502-1-256, p. 129. This *Kommando* was in charge of casting concrete parts used for the construction of air-raid-shelter trenches (*Luftschutzgräben*).

⁹³ Bischoff’s letter, June 4, 1943, with the subject “Leistungsprämien für Häftlinge.” *RGVA*, 502-1-60, p. 18.

⁹⁴ For comparison, Crematoria IV and V of Birkenau cost 203,000 RM each. *RGVA*, 502-2-54, p. 12; 502-2-146, p. 3.

Inmates with a record of good behavior and who carried out their tasks diligently were also rewarded with the right to wear long hair (see Document 33).

3. The Use of Inmate Labor: Statistical Overview

With regard to the use of inmate labor, the Central Construction Office had to draw up various statistical reports, which have been preserved in a fragmentary manner:

1. Report on the state of construction work and labor deployment: monthly report compiled on the 25th of every month by the head of construction and then by the head of the Central Construction Office and sent to the regional representative for the regulation of all constructions in Kattowitz.⁹⁵
2. Deployment of inmates: daily report compiled by the head of the Central Construction Office with an indication of the worksites, occupations, the number of trained and unskilled inmate workers, and the total number (Document 34).
3. Allocation of inmate deployment: monthly report compiled by the head of the Central Construction Office regarding day-by-day numbers of inmates employed in the individual worksites (Document 35).
4. Summary of inmate deployment: monthly report on the use of inmate labor by occupation and by construction site.
5. Summary of total inmate deployment: daily report compiled by the head of the Central Construction Office and sent to Department IIIa of the camp commando, indicating, among other things, the number of inmates requested and actually employed (Document 36).
6. Summary of total inmate deployment: report identical to the preceding, but on a monthly basis (Document 37).
7. Summary of the inmates required or made available for the construction project of the Central Construction Office of Auschwitz in the period...: monthly report compiled by the head of the Central Construction Office (Document 38).

The use of inmate labor was also recorded in the construction reports and construction deadline schedules, and, moreover, in the general statistics of the administration, which are, unfortunately, quite fragmentary; the most important are the following:

⁹⁵ Only two of these reports are known, that of December 1941, and that of February 1942. *RGVA*, 502-1-319, illegible page number on my photocopy.

1. Summary of inmates deployment in Concentration Camp Auschwitz: monthly report relating to the entire Auschwitz complex drawn up by Department IIIa;
2. Summary of the number and deployment of inmates of Concentration Camp Auschwitz: compiled by the heads of labor deployment of the individual male camps;⁹⁶
3. Summary of the number and deployment of female inmates of Concentration Camp Auschwitz: compiled by the head of labor deployment of the women's camp (*Frauenlager*) of Birkenau. These reports were compiled irregularly, usually covering a period of five days.
4. Labor deployment: daily report for the men's camp drawn up by Department IIIa, upon which the heads of labor deployment depended;
5. Labor deployment of the woman's camp Birkenau: report also compiled by Department IIIa for the women's camp at Birkenau.

In these reports the inmates employed by the Central Construction Office are recorded under the heading "Office Group C. Construction Offices" or "Office Group C. Construction. Purposes important to war".

The above-mentioned documents permit the following survey of the use of inmate labor by the Central Construction Office.

1940

The first large-scale use of inmates for the construction of Concentration Camp Auschwitz occurred at the end of June 1940.⁹⁷ For subsequent years we have the following data:

Month	Construction project	Male inmates			Female inmates	Soviet PoWs	Total
		F.A.*	H.A.*	Total			

1941

10 July - 10 Aug.	conc. camp	427	1,589	2,016			2,016
10 Aug. - 10 Sept.	conc. camp	454	1,983	2,437			2,437
8 Sept. - 8 Oct.	conc. camp	487	2,148	2,635			2,635
8 Oct. - 10 Nov.	conc. camp	581	1,604	2,185			2,185
November	conc. camp			2,495			2,495
10 Nov. - 10 Dec.	conc. camp	508	1,513	2,021			2,021
December	conc. camp			2,540		900	3,440

⁹⁶ For 1944, few reports relating to the men's camp at Auschwitz II-Birkenau remain.

⁹⁷ "Tätigkeitsbericht" by Schlachter, July 5, 1940, relating to the period June 28 – July 4. *RGVA*, 502-1-214, p. 98.

Month	Construction project	Male inmates			Female inmates	Soviet PoWs	Total

* F.A. = *Facharbeiter* = skilled workers; H.A. = *Hilfsarbeiter* = unskilled workers

For 1943, we also know the monthly number of working days for men and women combined, providing the ability to deduce the number of male and female inmates employed:

Month	Working days	Average number of inmates employed
January	186,234	7,163
February	223,365	9,307
March	196,769	7,288
April	173,098	6,923
May	272,995	10,500
June	252,055	9,694
July	291,167	10,784
August	281,228	10,816
September	279,853	10,763
October	288,132	11,082
November	276,751	10,664
December	255,523	9,828

1944

For 1944, the following partial dates are known:

Month	Males working days	Average no. of males	Females working days	Average no. of females	Total working days	Average no. of all inmates
January	223,381	8,592	6,695	257	230,076	8,849
February	221,542	8,844	10,442	435	231,984	9,279
March	186,815	6,919	13,540	501	200,355	7,420
April	168,455	7,019	18,985	791	187,440	7,810
May	150,818	5,586	32,678	1,210	183,496	6,796
5 June				1,406		
19 July				1,307		
30 July				1,585		
August	232,411	8,608	42,558	1,576	274,969	10,184
October	135,071	5,195	11,430	440	146,501	5,635
November	66,726	2,269	25,107	1,004	91,833	3,673

Although the Central Construction Office still carried out tasks of major importance to the war (*kriegswichtige Zwecke*), inmate availability to the Central Construction Office was generally very far beneath requirements. On March 1, 1943, Bischoff announced to the camp commandant that during the period of February 6-27, several *Kommandos* had worked with drastically reduced effective personnel. For the *Kommando* assigned to leveling of terrain, Bischoff had received an average of only 28% of the 3,000 inmates requested, sometimes even less than 100 (83 on February 20, 45 on February 24); for the bricklayer *Kommando* assigned to building furnaces, of the 500 inmates requested every day, Bischoff had received 30 on the 10th, 11th, 16th and 17th of February, 49 on the 15th, and none the other days. For the barracks construction *Kommando*, which had a daily workforce of 300 inmates, inmate availability had been 26%

of requirements.⁹⁸ The above-mentioned statistical reports of the Central Construction Office on the use of inmate labor in 1943 and 1944 indicate the inmates requested and those made available. The data contained in those reports is summarized in the following table (see Document 38):

1943			
Month	Inmate working days requested	Inmate working days allocated	Shortfall
January	376,239	186,234	190,005
February	393,276	223,365	169,911
March	478,012	196,769	281,243
April	405,918	173,098	232,820
May	419,435	272,995	146,440
June	408,191	252,055	156,136
July	441,140	291,167	149,973
August	443,335	281,228	162,107
September	491,775	279,853	211,922
October	574,473	288,132	286,341
November	418,075	276,751	141,324
December	399,825	255,523	144,302
Total	5,249,694	2,977,170	2,272,524

1944 ⁹⁹			
Month	Inmate working days requested	Inmate working days allocated	Shortfall
January	366,200	230,076	136,124
February	350,071	231,984	118,087
March	303,012	200,355	102,657
April	273,409	187,440	85,969
May	253,615	183,496	70,119
August	301,789	274,969	26,820
October	182,938	146,501	36,437
November	163,762	91,833	71,929
Total	2,194,796	1,546,654	684,142

Thus, in 1943 the amount of inmates available was 56.7% of those required, and in 1944 this percentage was 70.5%.

⁹⁸ "Aktenvermerk über den Häftlingseinsatz im K.G.L.," report by Janisch. *RGVA*, 502-I-67, pp. 161-164.

⁹⁹ "Aufstellung über den Gesamt-Häftlingseinsatz" from: Jan 31; Mar. 31; Apr. 30; May 31; Aug. 31; Oct. 31; Nov. 30, 1943; Feb. 29, 1944; *RGVA* 502-I-256, pp. 118, 109, 111, 105, 102, 84, 90, and 88.

4. The Workshops of the Central Construction Office

The workshops in various construction sectors employed *Kommandos* of usually skilled inmates. As early as the beginning of 1941, there were the tailor's shop, shoe shop, smith's office, forge, carpentry shop, typography shop, and painting shop (see Document 42). In the following years the *Kommandos* grew notably in number; in January 1943 there were 19; electricians, cabinet makers, concrete workers, blacksmiths, smiths, plumbers, welders, turners, casters, painters and varnishers, sewer plumbers, glassmakers, installers, heating installers, cartwrights, auto mechanics, insulators, doctors, underground-construction specialists (see Document 39).

The *Kommandos* of the workshops performed their work in all construction sites. According to practice in 1942, the head of construction needing the work first filed a request with the materials administration on a suitable, numbered form (see Document 40). If the request was approved, the head of the workshop passed on the order to the *Kommando* concerned, using a suitable numbered form indicating the type of work to be done (see Documents 41f.). The *Kommando* performing the task then compiled a labor card indicating the job number, the *Kommando*, the beneficiary, and the work starting and ending dates. On the reverse the materials used, the costs of the materials, and the labor costs were listed (see Document 43). The inmate locksmith shop had a different card indicating the working detail (*Kolonne*), the object of the work, the ordering entity, the starting and ending dates of the work, the name, qualification, and working hours of the inmates having performed the work. The reverse was no different from the other model of the card (see Document 44). The *Kommandos* were sub-divided into working details operating on the responsibility of a head of the working detail (*Kolonnenführer*) and an *Oberkapo*. If the rendering of services consisted of the manufacture of an object of any kind, ordering entity, upon receipt of the object, signed a numbered receipt.

On February 8, 1943, the 192 inmates of the inmate locksmith shop, headed by SS *Unterscharführer* Walter Kywitz, were taken over by the DAW,¹⁰⁰ and the new office received the initials *DAW WL* (*Werkstattleitung*). Starting the next day, orders filled by this shop were filed in a register called "*WL-Schlosserei*," which included the following entries: date of arrival of the order, progressive number of the DAW, reference, object, number of working hours

¹⁰⁰ "Häftlingsschlosserei. Aufstellung der Häftlinge." February 8, 1943. The inmates are indicated with the respective registration number. *RGVA*, 502-1-295, p. 63.

employed, beginning and ending dates of the work.¹⁰¹ The relative data was derived from the labor cards.

The register also contained the order number and order date derived from the suitable forms (see Document 45). The Central Construction Office supplied the workshops with the material necessary, accompanied with a delivery note (*Lieferschein*; Document 46). Once the work was finished, the DAW sent the related invoice to the Central Construction Office (see Document 47).

¹⁰¹ This register is known for some extracts introduced into evidence during the Höß trial. APMO, Drp. Hd/11a, pp. 81-97. I have not found where this is archived.

Chapter IV: Private Firms and Civilian Workers

1. Private Companies

Numerous private firms worked at Auschwitz at all times for the entire period of activity of the camp, from 1940 to 1945. The first firm the then SS New Construction Office contacted – as early as April 1940 – was Topf & Söhne of Erfurt.¹⁰² The Friedrich Boos corporation of Cologne, a specialist in sanitary installations, began to work at Auschwitz in September 1940.¹⁰³ In November 1941, the Huta construction corporation of Kattowitz was employed in construction work on the POW camp.¹⁰⁴ In the following months and years the private firms employed at Auschwitz grew enormously. On April 9, 1943, 29 firms were working on the various worksites at Auschwitz (see Document 48). The camp command allocated a special permit number to each firm, and the Central Construction Office assigned it the necessary inmates (Document 49). A list dated June 4, 1943, shows that 31 civilian firms were employed (Document 50). On January 16, 1945, there remained civilian firms at Birkenau: the Conti (Continental Wasserwerkgesellschaft) and the Spirra.¹⁰⁵ The following table is a list of the most important private firms rendering services at Auschwitz:

1. ADER, Gustav
2. AEG, Kattowitz, Holtzestrasse 23
3. ANHALT Hoch- und Tiefbau AG, Baugeschäft, Berlin S W 11. Schönebergerstrasse 13
4. BAHNBETR. WERKE, Auschwitz
5. BERHOLD, Robert, Gleisarbeiten, Gleiwitz
6. BOLNEY, Speditionsfirma
7. BOOS, Friedrich, Zentralheizungen, Köln-Bichendorf, Helmholzstrasse 6167

¹⁰² On April 17, 1940, the Topf firm sent the SS New Construction Office a cost estimate regarding a two-muffle cremation furnace. Letter from Topf to SS New Construction Office, October 9, 1940. *RGVA*, 502-1-327, p. 209.

- 45. WODAK, Hans, Bauingenieur and Brunnenbaumeister, Beuthen O/S, Gymnasialstrasse 20
- 46. ZEMENTFABRIK, Golleschau

The civilian firms did their assigned work using civilian workers who lived in the grounds of Auschwitz in a community camp. There were also voluntary Italian civilian workers who lived in a camp near the Auschwitz railway station.¹⁰⁶

The civilian workers worked in such close contact with the inmates that the Central Construction Office was compelled to make all the private firms sign a declaration that civilian workers would not infringe the disciplinary standards of the camp in their relations with inmates. The text of the declaration was as follows (see Document 51):

“In consequence of the conferral... of road construction works the company and its personnel will come into contact with inmates assigned as aides. The inmates attempt to approach individual civilians and induce them to carry out prohibited actions.

To prevent the occurrence of regrettable actions with unforeseeable consequences, the company hereby assumes the following declaration on its own behalf and on behalf of its personnel:

The company and its personnel are informed of the fact that:

I. they may not have relations with the inmates.

II. It is strictly prohibited to supply the inmates in any manner.

III. Taking charge of letters or writings of any kind on behalf of the inmates is prohibited and will be severely punished.

The firm undertakes to institute special supervisory bodies so that the above-mentioned provisions are respected and that the firm and its personnel are preserved from harm.

Any violation must be immediately communicated to the Central Construction Office indicating the number of the inmate.

Auschwitz, ...”

It does not appear from any document that civilian firms and workers were in any such way bound by any declaration of secrecy as to the camp's activities.

¹⁰⁶ “BW 32 H, Unterkunftbaracken für ital. Zivilarbeiter (Zivilarbeiterlager II),” mentioned for the first time in “*Baubericht für Monat Oktober 1942.*” RGVA, 502-1-24, p. 87.

2. Civilian Workers

The first civilian workers entered Auschwitz together with the first firms. On May 13, 1942, during a service trip to the *WVHA* in Berlin, Bischoff had to present a copy of the daily reports on the use of manpower to convince SS *Sturmabführer* Sesemann that nearly 1,000 civilian workers were employed at Auschwitz, not merely 57, as believed by his office.¹⁰⁷ In fact, as early as the end of 1941, these had reached a manpower force of several hundred persons; starting in 1942, the majority of these were lodged in a suitable camp, the community camp, but a few lived with their families in houses located in the camp grounds of Auschwitz. It was precisely in the community camp where the devastating typhus epidemic broke out and subsequently raged at Auschwitz with various waves from July 1942 until April 1943. The first cases of typhus were verified on July 1, 1942, among civilian workers of the Huta corporation.¹⁰⁸

From construction reports and construction-deadline schedules that survived, the following statistics regarding the numbers of civilian workers at Auschwitz may be deduced:

Month	construction project	German civilians	Foreign civilians	Total
1941				
November				800
December				780
1942				
10 Jan. - 10 Feb.	conc. camp	65	309	374*
	POW camp	277	331	982

	agriculture	3		
13 December	conc. camp	132	481	868*
	POW camp	36	219	
* = partial data				

On March 31, 1943, there were 1,200 people working on the construction of the Krupp offices: 29 German civilian workers, 372 Polish workers, and 799 inmates.¹⁰⁹

In September 1944, the following civilian workers were employed in the community camp (see Document 52):

September 1: 782

September 15: 750

September 8: 715

September 22: 710

According to an order of the camp command dated April 20, 1942, all civilian employees and workers subordinated to the Central Construction Office had to wear distinctive green armbands. On April 22, Bischoff sent the command a letter with a request for green material necessary to manufacture the armbands. Höß returned the letter with a laconic notation: procuring the material was not his business, but that of the Central Construction Office.¹¹⁰ Bischoff then turned to Office Group B/IV of the *WVHA* with the urgent request for a purchase voucher for approximately three meters of green cloth.¹¹¹ Obtaining this material must have been really difficult, because on December 6, 1944, Jothann requested green armbands for three Polish workers, who had been transferred to Auschwitz, from the Central Construction Office of Breslau.¹¹²

Civilian workers received their salary from the firms for which they worked (see Document 53). For assistance, lodgings, and employment in the camp

¹⁰⁹ Form "Bestand und Bedarf an Bau- und Montagearbeiten des Bauvorhaben VIII Nf 3a (Friedrich Krupp AG, Essen)," April 3, 1943. *RGVA*, 502-1-296, pp. 393-393a.

¹¹⁰ Letter from Bischoff to Kommandatur of K.L. Auschwitz, April 22, 1942. *RGVA*, 502-1-265, p. 665.

¹¹¹ Letter from Bischoff to Amtsgruppe B/IV of *WVHA*, May 1, 1942. *RGVA*, 502-1-265, p. 664.

¹¹² Letter from Jothann to Zentralbauleitung der Waffen-SS und Polizei Breslau-Lissa, December 6, 1944. *RGVA*, 502-1-280, p. 30.

workers depended on the Labor Deployment Department of the Central Construction Office – in January 1943 under SS *Unterscharführer* Pantke, who administered nearly 1,000 civilian employees.¹¹³ However, the Auschwitz city branch of the Bielitz labor office, which was subordinate to the district labor office of Upper Silesia, was responsible for their assignment to work. The Auschwitz outpost of the labor office compiled monthly and/or quarterly reports on the civilian workers and employees inscribed on their lists, a few copies of which are preserved in the archives of the Central Construction Office.

In the “List of workers and employees of the...” the workers were classified by profession and gender. The few surviving reports mention 8,418 men and 2,994 women on April 1, 1942; 8,688 men and 3,406 women on June 30, 1942; and 8,851 men and 3,472 women on September 30, 1942.¹¹⁴

The Labor Registry Statistics Abu 4a first registered monthly, then quarterly, the variations in worker manpower: 20,292 registered workers (males only) on March 31, 1943; 19,711 on June 30, 1943; 20,472 on September 30, 1943; 20,677 on December, 31; 21,275 on March 31, 1944.¹¹⁵

The labor registry statistics finally contained a separate list of (male) German workers and foreign workers: 21,620 German and 5,595 foreign workers on June 30, 1944; 21,885 German and 6,664 foreign workers on September 30, 1944; and 4,535 German and 8,070 foreign workers on December 31, 1944.¹¹⁶

Wirkung vom 31. Januar 1942 werden folgende Dienststellen aufgestellt

- 1.) Hauptamt Haushalt und Bauten
- 2.) Hauptamt Verwaltung und Wirtschaft
- 3.) Verwaltungsamt-SS.

Die Aufgaben der Dienststellen zu 1.) — 3.) übernimmt ab 1. Februar 1942 das

SS-Wirtschafts-Verwaltungshauptamt
(SS-W.-V. Hauptamt)

Berlin-Lichterfelde-West. Unter den Eichen 127/136.

Chef: SS-Gruppenführer und Generalleutnant der Waffen-SS **Pohl**

Vertreter: SS-Brigadeführer und Generalmajor der Waffen-SS **Frank**

In diesem Hauptamt werden alle Wirtschafts-, Verwaltungs- und Baugeschäfte des Reichsführers-SS in ministerieller Instanz bearbeitet.
Das SS-Wirtschafts-Verwaltungshauptamt ist in folgende **Amtsgruppen und Ämter** gegliedert:

Amtsgruppe A Chef: SS-Brigadeführer und Generalmajor der Waffen-SS **Frank**

- mit den Ämtern
- A I Haushaltsamt
 Haushalt der Waffen-SS und der
 Allgemeinen-SS (Reichskassenverwalter-SS)
 - A II Kassen- und Besoldungswesen
 - A III Rechtsamt
 - A IV Prüfungsamt
 - A V Personalamt

Amtsgruppe B Chef: SS-Brigadeführer und Generalmajor der Waffen-SS **Löhrner**

- mit den Ämtern
- B I Verpflegungswirtschaft
 - B II Bekleidungswirtschaft
 - B III Unterkunftswirtschaft
 - B IV Rohstoffe, Preisprüfwesen, Devisen,
 Beschaffungen

Document 2: Organization chart of the SS Wirtschafts-Verwaltungshauptamt. (Document NO-719. BAK.)

Amtsgruppe C Chef: *SS*-Oberführer Dr. Ing. Kammeler

mit den Ämtern	CI	Allgemeine Bauaufgaben
	CII	Sonderbauaufgaben
	CIII	Technische Fachgebiete
	CIV	Künstlerische Fachgebiete
	CV	Zentrale Bauinspektion
	CVI	Bauunterhaltung und Betriebswirtschaft

Amtsgruppe W Chef: *SS*-Gruppenführer Pohl

mit den Ämtern	WI	Steine und Erden (Reich)
	WII	Steine und Erden (Osten)
	WIII	Ernährungsbetriebe
	WIV	Holzbearbeitungsbetriebe
	WV	Land-, Forst- und Fischwirtschaft
	WVI	Textil- und Lederwertung
	WVII	Buch und Bild
	WVIII	Sonderaufgaben

Das „Amt IV Verwaltung“ im Führungshauptamt bleibt bestehen.
Ab 1. 2. 1942 haben alle dem Führungshauptamt unterstellten Dienststellen ihren Schriftwechsel in Verwaltungsangelegenheiten an das Amt IV im Führungshauptamt zu richten.

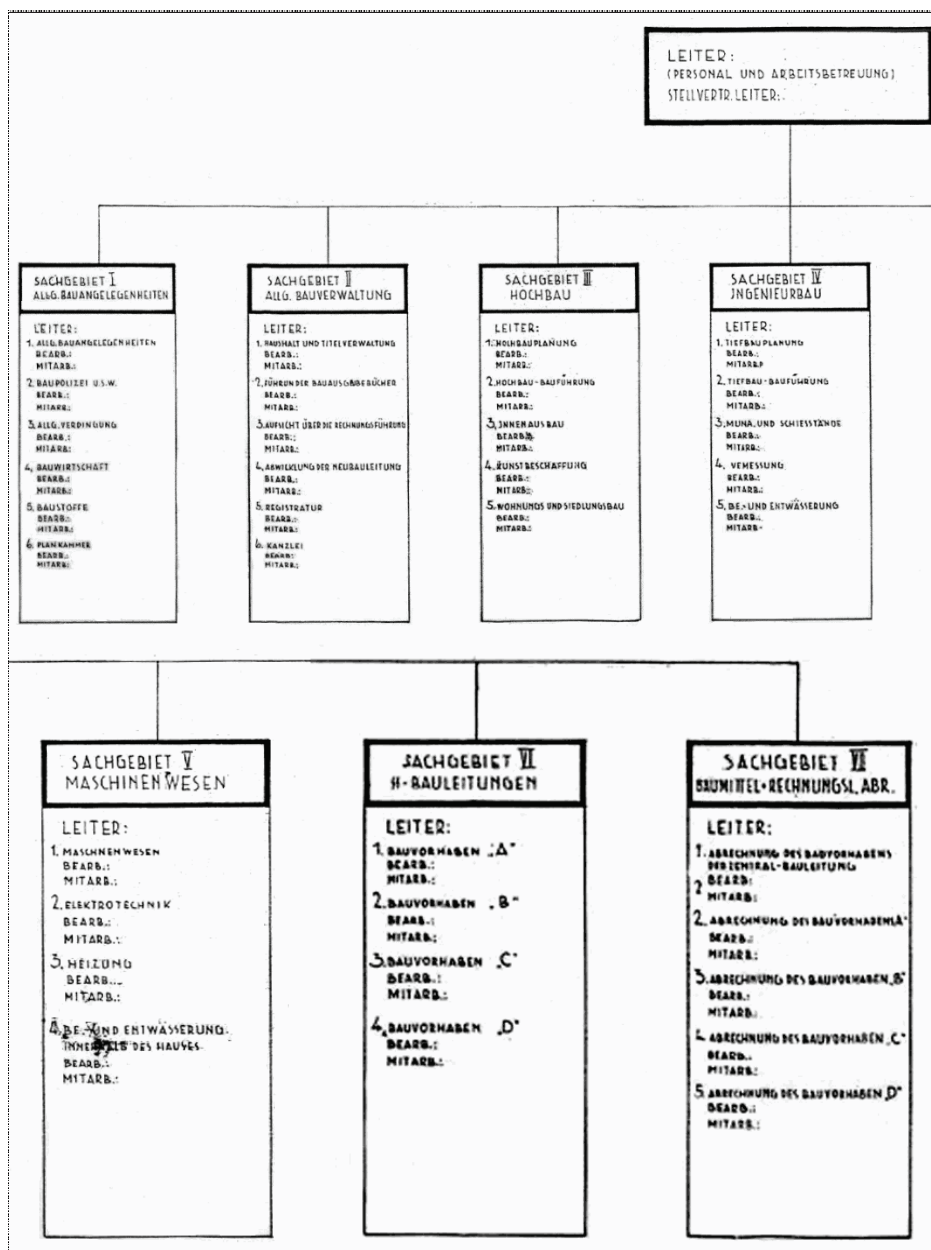

Die Leiter der Verwaltungen aller Hauptämter, der Oberabschnitte, der Höheren *SS*- und Polizeiführer, der Truppenwirtschaftslager, der Bauinspektionen und sonstiger selbständiger Einheiten verkehren ab 1. Februar 1942 unmittelbar mit dem Wirtschafts-Verwaltungshauptamt.

Diese Organisationsänderung hat die Auflösung bzw. Zusammenlegung einer Anzahl Verwaltungsdienststellen im Reich und im besetzten Gebiet zur Folge. Die notwendigen Anordnungen hierzu ergeben demnächst.

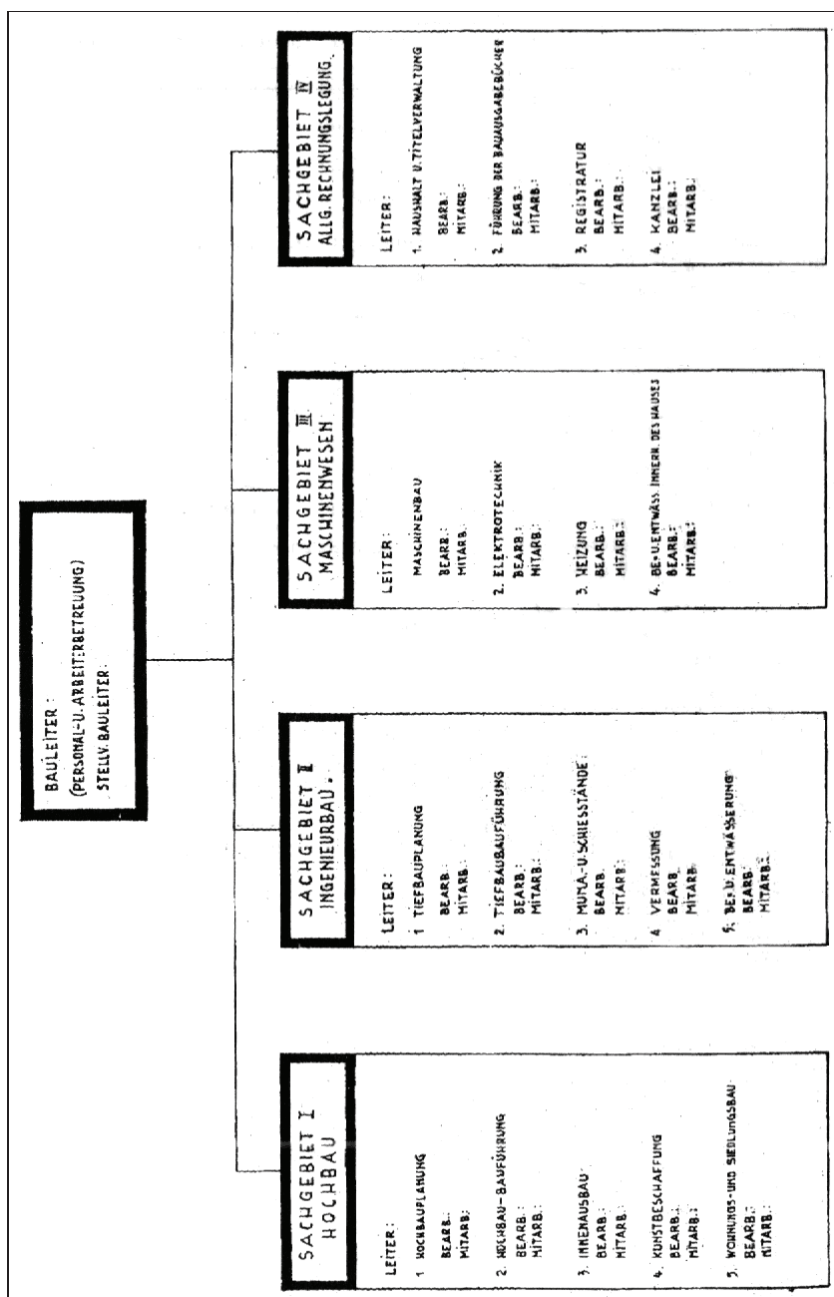

I. V.

SS-Gruppenführer und
Generalleutnant der Waffen-*SS*

Auschwitz, den 17. August 1942

Po/Ha.

Der Leiter der Zentralbauleitung
 der Waffen-SS und Polizei Auschwitz

SS-Hauptsturmführer (S)

Geprüft

Berlin, den 17. Sep. 1942

Der Chef des Amtes C I

SS-Sturmabführer

Erläuterungsbericht

für die Aufstockung von 8 Häftlingsunterkünften im Konzentrationslager Auschwitz O/S.

Dienstliche Veranlassung: Siehe vorgeheftete Abschrift des Schreibens der Chef des Hauptamtes Haushalt und Bauten; der Chef des Amtes II vom 18. Juni 1941; Az.: II B 2/3/4/Se/Lc., Abschnitt 2 a. ———

Beschaffung und Beschaffenheit der Baustelle: Die für die Aufstockung in Frage kommenden Gebäude waren ehemals Mannschaftsunterkünfte der früh. poln. Artilleriekaserne und sind am 4. Mai 1941 von der Heeresstandortverwaltung Kattowitz der Kommandantur des Konzentrationslager Auschwitz kostenlos überlassen worden. ———
Das Gelände ist eben.
Der Besitzer ist das Reich.

Baugrund: Der Baugrund, auf dem die aufzustockenden Gebäude stehen, ist gut. (Bodenklasse III)

Entwurfsanordnung: Es wurden aufgestockt:

I. Bauten:

- 1) BW 20 A Häftlingsunterkünfgebäude
- 2) EW 20 B " "
- 3) EW 20 D " "
- 4) BW 20 E " "
- 5) BW 20 F " "
- 6) BW 20 G " "
- 7) BW 20 R " "
- 8) BW 12 Häftlingseffektenkammer

II. Außenanlagen:

entfallen.

Lageplan: Die Lage der Gebäude geht aus beiliegendem Lageplan hervor. ———

- 2 -

Aufstockung der
Unterkünfte
BW 20 A; 20 B;
20 D; 20 E; 20 F.

- 1) Die bestehenden eingeschossigen nicht unterkellerten Häftlingsunterkünfte wurden aufgestockt. Das Treppenhaus wurde in zentraler Lage eingebaut. Bei der Planung wurde darauf Wert gelegt, möglichst große und übersichtliche Räume zu schaffen. Das Dachgeschoß ist nicht ausgebaut. Um Obergeschoß befindet sich zu beiden Seiten des Treppenhauses je ein großer Schlafsaal; dazwischen ein Raum für den Blockältesten. Im Erdgeschoß wurden Wasch- und Abortanlagen eingebaut. Die bestehenden Erdgeschoßbalkendecken wurden durch Einziehen von neuen Zwischenbalken verstärkt. Die Obergeschoßdecken sind Holzbalkendecken. Die Beheizung der Räume erfolgt zunächst durch Kachelöfen, später werden die Gebäude an ein neu zu errichtendes Fernheizwerk angeschlossen.

- BW 20 G und BW 12. 2) Die Ausführung dieser Bauwerke erfolgte genau wie vor, jedoch waren die Erdgeschoßdecken als Massivdecken vorhanden. Die Obergeschoßdecken sind als Holzbalkendecken ausgebildet.

- BW 20 R. 3) Die Ausführung dieses Bauwerkes erfolgte genau wie unter 1 beschrieben, jedoch wurde die Decke über Erdgeschoß als Eisenbetonhohlsteindecke, die Decke über Obergeschoß als Holzbalkendecke ausgeführt.

Baukosten: Diese sind aus dem beigelegten Kostenvoranschlag zu ersehen.

- 3 -

- 3 -

Bauzeit: Mit dem Bau ist im Oktober 1940 begonnen worden. Die Arbeiten sind bereits fertiggestellt und die Gebäude in Benutzung genommen.

Document 12: "GB-Bau-Zettel," Dec. 22, 1942.
(RGVA, 502-1-319.)

Bescheinigung über die Schornsteinabnahme.

Die in der Schweizer Baracke beim Krematorium befindlichen Schornsteine wurden auf ihre Feuersicherheit geprüft und die vorhandenen Mängel wurden beseitigt.

Soweit ersichtlich sind die Schornsteine in obengenanntem Gebäude in ordnungsmäßigem Zustand.

Auschwitz, den 8. II. 1943.

Betrifft : Tätigkeitsbericht vom 5. Juli bis 11. Juli 1940.
 Bezug : Umlaufschreiben vom 10. Juni 1940.
 Anlagen : Ohne .

die

Kommandantur des K.L. Auschwitz.

in Auschwitz .

1. Baustellenbetrieb ,

Im Bauteil I setzten die einzelnen Handwerker die Ausbauten fort jedoch konnte im eigentlichen Schuttschäftlager die Arbeiten nicht beschleunigt fortgeführt werden ,da wegen der Sicherheit eine gewisse Beschränkung geboten war. Im Reviergebäude wurde die Installation für die Be- und Entwässerung fortgesetzt. Das Gebäude Nr. 54 , das für die Aufnahme der Wachtruppe bestimmt ist, wurde gegen Ungeziefer und Krankheiten vergast. Im Krematoriumsbau wurden die Mauer - und Betonarbeiten fortgesetzt, das Fundament für die eigentliche Anlage eingeschalt und betoniert . Die zwei Mönchte der Fa Topf und Söhne , Erfurt trafen ein und begannen mit dem Bau der eigentlichen Verbrennungsanlage . Das Putzabschlagen und Einrüsten der Gebäude wurde fortgesetzt . Die Bauarbeiten mit der Bohrung der Brunnenanlage haben planmäßig ihren Fortgang genommen.

2. Einkauf von Materialien .

Hierbei ist kaum Wesentliches zu berichten, da durch das Fehlen von Kontingent- und Besugscheinen ein Einkauf kaum noch getätigt werden kann .

3. Planung .

Mit den Bestandsaufnahmen zur Festlegung der Grundrisse und deren Aufzeichnung wurde weiter fortgefahren . Die Ueberwachung der einzelnen Bauabschnitte wurde planmäßig durchgeführt und die notwendigen Detailzeichnungen warden angefertigt.

4. Geschäftsführung .

Das Überprüfen und Anweisungen von Rechnungen bzw. Abschlagszahlungen wurden fortgesetzt. Die dadurch bedingten Buchungen sowie der anlaufende Schriftwechsel wurden erledigt. .

An die

Kommandantur des

K.L. Auschwitz

Allgemeines: Der Baubetrieb wurde trotz des starken Frostes voll aufrecht erhalten, die einzelnen Arbeitskommandos teilweise verstärkt um die gestellten Bauaufgaben ausführen zu können. Es sind zur Zeit ca. 800 Zivilarbeiter, ~~2445~~ ²⁴⁴⁵ Häftlinge, ^{ca. 60 - 80} Pferdefuhrwerke, 3 LKW und 1 Sattelschlepper eingesetzt.

Baustellenbetrieb:A.) Schutzhaftlager:

Der 5. Häftlingsunterkunnftsneubau wurde im Rohbau fertiggestellt, der Dachstuhl aufgeschlagen und mit Doppelfalssiegel eingedeckt. 2 Häftlingsunterkunnftsneubauten wurden bis auf den Aussenverputz vollständig fertiggestellt und bezogen. Bei den anderen Bauten wird am Innenausbau gearbeitet.

Der 6. Häftlingsunterkunnftsneubau ist bis zur Erdgeschossdecke, der 7. und 8. Häftlingsunterkunnftsneubau bis zur Kellerdecke fertiggestellt und wurde mit dem Einschalen der einzelnen Hohlsteindecken begonnen.

Die beiden Anbauten an der prov. Häftlingsküche sind bis auf restliche Verputz- und Malerarbeiten fertiggestellt.

Ansonsten verschiedene kleinere Bau- und Installationsarbeiten in den übrigen Häftlingsunterkünften.

- 2 -

10

Das Entlausungs- und Zugangsgebäude mit Häftlingsbad ist im Bau. Das Erdgeschossmauerwerk bei Badetrakt ist bis auf Fenstersturmhöhe fertiggestellt, der Keller des Zugangsgebäudes zum größten Teil ausgebaggert.

Bei den neuen Häftlingsunterkünften ausserhalb des derzeitigen Schutzhaftlagers wurde mit den Ausschachtungsarbeiten begonnen, und die Baustelle eingerichtet.

B.) Unterkünfte- und Wirtschaftsgebäude für Truppe:

Verschiedene Instandsetzungsarbeiten bei den Truppenunterkünften im Gymnasium Auschwitz und Schule Birkenau. Fundamente für die 4 neuen Unterkunftsbaracken des Kommandanturstabes fertiggestellt und mit Aufstellen der Baracken begonnen. Bei Wirtschaftsbaracke für die Truppe die hölzernen Umfassungswände aufgestellt und mit Installation der Heizkörper begonnen. Erweiterungsbau bei Bauleitungsbaracke bis auf Einziehen der Zwischenwände und Dachdeckung fertiggestellt.

C.) Führer- und Unterführerwohnhäuser:

Laufende Instandsetzung der bestehenden Wohnhäuser im evakuierten Gebiet für Wohnzwecke.

D.) Kriegsgefangenenlager:

Vorerst wurde das Quarantänelager ausgebaut und ist bis jetzt folgender Stand der Bauarbeiten erreicht:

6 Baracken für je ca. 700 Gefangene bis auf Verglasung fertiggestellt.

8 weitere Baracken eingedeckt und im Rohbau fertiggestellt.

7 Baracken im Rohbau fertiggestellt und das Dach aufgeschlagen.

2 Baracken bis auf das Aufschlagen des Daches fertiggestellt.

Bei 7 Baracken die Fundamente fertiggestellt.

1 Wirtschaftsbaracke mit Aufschlagen des Daches begonnen, Kamine gemauert.

1 Wirtschaftsbaracke bis auf Aufschlagen des Daches fertiggestellt.

Einfriedung aus Betonpfählen zu 90 % fertiggestellt, Stacheldraht bis auf die unteren Reihen gespannt.

Eingangsgebäude mit Trafostation im Bau, bei Trafostation Dachstuhl aufgeschlagen. Starkstromleitung von Pappefabrik Birkenau bis

- 3 -

- 3 -

Lager montiert. 3 Brunnen für die Wasserversorgung fertiggestellt. Zufahrtsstrasse von K.L. bis K.G.L. im Grundbau zu 90 % fertiggestellt, das Walzen musste infolge Schneefall eingestellt werden. Die Klärgrube und der Vorflutgraben zur Weichsel musste infolge Mangel an Häftlingen oder Kriegsgefangenen eingestellt werden.- Der Abbruch der Ortschaft Birkenau wurde weitergeführt und das anfallende Material zur Verarbeitung an die Baustelle geschafft.

E.) Hauptwirtschaftslager der Waffen-H:

Das Unterkunftgebäude II in Raisko wurde fertiggestellt und ist zum Teil bereits bezogen.

Die prov. Bäckerei für das Kriegsgefangenenlager wurde ausgesteckt und mit der Einrichtung der Baustelle begonnen.

F.) K-Kantinengemeinschaft Auschwitz:

Das prov. Schlachthaus wird durch einen Anbau vergrössert, mit den Mauerarbeiten wurde begonnen.

G.) Tiefbau:

Mit dem Bau des Hauptsamalers wurde begonnen, der Bagger aufgestellt und in Betrieb gesetzt.

Die Strasse vom Bahnhof bis zum Lager wird mit neuem Grundbau versehen und beschottert.

An den Brunnen für die Wasserversorgung des Lagers wird weiter gearbeitet.

H.) Sonstiges:

Die laufend anfallenden Instandsetzungsarbeiten an den bestehenden Gebäuden wurden durchgeführt.

Für die Landwirtschaft wurden behelfsmässige Stallungen und Schuppen errichtet.

Ausserdem wurden in den Häftlingswerkstätten die für die einzelnen Bauwerke erforderlichen Handwerkerarbeiten ausgeführt.

Die Unterkünfte für die Zivilarbeiter werden weiter ausgebaut.

B. Werkstatttätigkeit

Außer der täglichen Instandsetzung der Fahrzeuge wurde der LKW Magirus # 94641 nunmehr in Betrieb gesetzt. Der Chevrolet IT 52914 wurde überholt und mit Tarnfarbe versehen bzw. beschriftet. Der LKW Magirus # 94645 mußte einer erneuten Überholung unterzogen werden, desgleichen der LKW Praga # 20499 wegen Differenzialschaden.

An allen eingesetzten Fahrzeugen mußten laufend größere Reparaturen ausgeführt werden.

An Baumaschinen ist der Deutz -Mischer -Motor überholt worden desgleichen der Deutz-Bagger.

Die Dienstfahräder der Z.B. z.Zt. 37 Stück werden täglich kleineren Reparaturen unterzogen und fahrbereit gehalten.

C. Dienststelle

Die schriftliche Bearbeitung wurde durch # Schütze Riegenhagen erledigt, der für den nach Dachau versetzten Rttf. Kowol eingesetzt wurde .

Arbeitsberichte, Anforderungen von Benzin und Dieselkraftstoff für eingesetzte Fahrzeuge und Baumaschinen, Karteiführung sowie sonstiger Schriftverkehr mit Baufirmen und Behörden wurde getätigt. Insbesondere sind die eingesetzten Baumaschinen einer Maschinenbuchkontrolle unterzogen worden zum Zweck der Feststellung des Treibstoff und Motorenoelverbrauchs.

Der Fahrbereitschaftsleiter

Document 35: “Aufteilung des Häftlingseinsatzes” (details of inmate labor deployment). May 1942. (RGVA, 502-1-67, p. 49.)

Aufstellung

über den

Gesamt-Häftlingseinsatz per 31. Oktober 1943

laut Verfügung des 4-V-Hauptamtes vom 12. August 1943.

	<u>Männer:</u>	<u>Frauen:</u>	<u>Gesamt:</u>
1.) Vorgesehener Häftlings-Einsatz	17 688	865	18 553
2.) Erfolgtter Häftlings-Einsatz (31.10.43).....	10 274	610	10 884
3.) Gesamttagewerke des Häftlingseinsatzes (wie Punkt 2).....	10 274	610	10 884
4.) Gesamt-Arbeitsstunden der Häftlinge.....	102 740	6100	108 840
5.) Gefertigte Gegenstände.....	Laufende Arbeiten an ver- chiedenen Bauwerken.		
6.) Wenn keine Stückzahlen usw. angegeben werden können, ist der Prozentsatz gegenüber dem Fertigungsoll (100%) bei der Fertigung mitanzugeben. Da Arbeitszeitverminderung auch als Leistungsteigerung in Pro- zenten angegeben werden muss, ist dahinter das Kennzeichen AZS zu setzen. (Ist nur anzugeben, wenn Angabe nach Ziff. 5 unmöglich ist.)	—	—	—
7.) In der Berichtszeit an Häftlinge ausgegebene Prämienscheine (Angabe in Reichsmark).....	Vom 1.10.43 bis 31.10.43.....= RM. 20.355.—		

Auschwitz O/S., den 4. November 1943.

Document 36: "Aufstellung über Gesamt-Häftlingseinsatz" (list of total inmate labor deployment), daily report. Oct. 31, 1943. (RGVA, 502-1-256, p. 132.)

AUSCHWITZ			
Über den			
Gesamt-Häftlingseinsatz per 31.8.44			
lt. Verfügung des Hauptamtes v.			
12.8. 1944.			
	Männer:	Frauen:	Gesamt:
1.) Vorgesehener Häftlings-Einsatz v. 1.8.-31.8. 44	861 955	39 834	301 789
2.) Erfolgtter Häftlings-Einsatz v. 1.8.-31.8. 44	232 411	42 558	274 969
3.) Gesamttagewerke d. Häftlings-Einsatzes (w. Punkt 2)	232 411	42 558	274 969
4.) Gesamt-Arbeitsstunden der Häftlinge v. 1.8.-31.8.44.	2 494 590,5	448 729,5	2 943,320,0
5.) Gefertigte Gegenstände:	Laufende Arbeiten an verschiedenen Bauwerken sowie Erd-Maurer-Beton-Dachdeckerarbeiten, Be- u. Entwässerung, Kanalisations-Installationsarbeiten, Vermessungen, Ausführung von Elektro-Anlagen, Durchführung von Meliorationen usw.		
6.) Wenn keine Stückzahlen usw. angegeben werden können, ist der Prozentsatz gegenüber dem Fertigungssoll (100 %) bei der Fertigung mit anzugeben. Da Arbeitsverminderung als Leistungssteigerung in Prozent angegeben werden muß, ist dahinter das Kennzeichen A23 zu setzen. (Ist nur anzugeben, wenn Angabe nach Ziff. 5 unmöglich ist.)			
7.) In der Berichtszeit an Häftlinge ausgegebene Prämienscheine:			
	(Angabe in Reichsmark) v. 1.8.-31.8. 1944.

Drittschritt

V e r p f l i c h t u n g .

Durch die Übertragung ... von Straßenbauarbeiten...

.....
kommt die Firma und deren Gefolgschaftsmitglieder mit den zur Arbeitsbeihilfe zugeteilten Häftlingen in Berührung, Die Häftlinge versuchen an die einzelnen Zivilpersonen heranzutreten und sie zu verbotenen Handlungen zu verleiten.

Damit keine Unannehmlichkeiten mit ungeahnten Folgen entstehen, übernimmt hierdurch die Firma für sich und ihre Gefolgschaftsmitglieder folgende Verpflichtung:

Die Firma sowie ihre Gefolgschaftsmitglieder sind darüber belehrt,

- I. daß sie mit den Häftlingen keinen Verkehr zu pflegen haben,
- II. daß irgendwelche Besorgungen für Häftlinge strengstens untersagt sind,
- III. daß Briefe oder Schriftstücke irgendwelcher Art für Häftlinge zu besorgen verboten ist und schwer bestraft wird.

Die Firma verpflichtet sich, besondere Überwachungsorgane aufzustellen, damit vorgenannte Bestimmungen eingehalten und sie wie ihre Gefolgschaftsmitglieder vor Schaden bewahrt werden.

Jede Zuwiderhandlung ist sofort der Zentral-Bauleitung mit Angabe der Häftlingsnummer zu melden.

- Kaufmännische Abteilung* (commercial section): section of the SS *Neubauleitung* of Auschwitz; department of the ZBL of Auschwitz
- Kennziffer*: allocation of metal to the civilian firms by the SS *Rohstoffamt* (raw materials office) of Berlin-Halensee through the *Eisenverteilungsstelle* (iron distribution office) of the construction inspection in charge
- Kennziffergewicht*: weight of the metal for the *Kennziffer* indicated in the *Kostenanschlag*
- Klempner-Kommando*: inmate plumber squad of the ZBL
- Kolonnenführer*: column leader of a *Kommando*
- Kommandantur*: commander of the concentration camp
- Kommando*: labor squad made up of inmates of the ZBL
- Kontingentstelle* (materials allocation): one of the four departments of the main office of the *Reichsminister Speer* at Berlin
- Kontingenträger*: delegate of the allocation of materials in the construction management sector
- Kostenanschlag* or *Kosten-Anschlag*: cost estimate
- Kostenüberschlag* (approximate cost calculation): of a construction site
- Kraftfahrwesen* (automobiles): department II/K of the *HHB*
- Kriegsgefangenenlager (KGL, POW camp)*: construction project of the ZBL of Auschwitz
- Kriegswichtige Zwecke* (purposes important for the war): name of the activities of the ZBL in the reports on the deployment of inmate labor
- Kriegswirtschaftsjahr*: financial year of the war
- Kulturbau*: sub-section of the department *Tiefbau* of the ZBL Auschwitz assigned to the laying of irrigation pipes
- Lageskizze* (situation sketch): of a construction project or construction site
- Landesarbeitsamt*: territorial labor office
- Landmesser* (land surveying): department of the *Bauleitung* of Auschwitz
- Landwirtschaftliche Betriebe Auschwitz*: agricultural construction project of the ZBL of Auschwitz
- Leistungsprämien*: production premiums for deserving inmates
- Lieferschein*: delivery sheet
- Maler und Anstreicher-Kommando*: inmate painters' and varnishers' squad of the ZBL
- Malerei* (painters' shop): section of the workshops

Materiallager (materials warehouse): of the SS *Neubauleitung* of Auschwitz
Materialverwaltung (materials administration): department of the ZBL of Auschwitz

Materialverwaltung Richtigkeit bescheinigt: stamp of the *Materialverwaltung* attesting conformity to the *Versandanzeige* of the goods shipped

Meldung über den Stand der Bauarbeiten und des Arbeitseinsatzes (report on the state of the construction works and use of inmate labor): monthly report drawn up by the *Bauleiter* and then by the ZBL at Auschwitz

Meliorationen und Vermessung (draining and surveying): *Sachgebiet* of the ZBL of Auschwitz

Nachgerechnet am... (calculation checked on): stamp of the section of the *Buchhaltung* attesting to the execution of the invoice checking calculation

Neubauleitung: new construction office, name of ZBL during the early history of the camp

Ofenbaukommando: inmate squad of the ZBL assigned to the installation of furnaces

Opis (list): of the archive of the *RGVA*

Ordonanz: ordinance

Planierungskommando: inmate squad of the ZBL assigned to leveling of terrain

Planung (planning): section of the SS *Neubauleitung* of Auschwitz; department of the ZBL of Auschwitz; *Sachgebiet* of the ZBL of Auschwitz

Privatfirmen (private firms): employed by the ZBL

Prüfungskommission (control committee): for the construction management

Rechnungslegung (account): department of the *Bauleitung* of Auschwitz

Registratur (registry): *Sachgebiet* of the ZBL of Auschwitz; section of the SS *Neubauleitung* of Auschwitz

Richtig und festgestellt auf... (correct and set at...): stamp of the head of the *Buchhaltung* section attesting to the exactness of the content of an invoice

Rohstoff Abteilung (raw materials department): department of the ZBL of Auschwitz

Rohstoffstelle (raw materials office): *Sachgebiet* of the ZBL of Auschwitz

Rohstoffstelle und Einkauf (raw materials and purchasing): *Sachgebiet* of the ZBL of Auschwitz

Rüstungsausbau (armament development): one of the four departments of the main office of *Reichsminister* Speer at Berlin

Sachgebiete: sectors of the ZBL of Auschwitz

Schlosser-Kommando: inmate locksmith squad of the ZBL

Schlosser-Werkstatt (locksmith shop): section of the workshops

Schlußabrechnung: final payment order issued by the *Buchhaltung* section

Schlußrechnung: final invoice issued by a firm

- Schmiede-Kommando*: inmate forge squad of the ZBL
- Schmiede-Werkstatt* (forge workshop): section of the workshops
- Schneiderei-Werkstatt* (tailor shop): section of the *Werkstätten*
- Schreibkraft* (typists): *Sachgebiet* of the ZBL of Auschwitz
- Schreiner-Werkstatt* (joiner's workshop): section of the *Werkstätten*
- Schriftwechsel*: correspondence
- Schuhmacher-Werkstatt* (shoemaker's shop): section of the workshops
- Schutzhaftlager Auschwitz* (protective custody camp): section of Auschwitz camp for political prisoners
- Schweisser-Kommando*: inmate welder's squad of the ZBL
- Sonderbauleitung für die Errichtung eines Kriegsgefangenlagers der Waffen-SS in Auschwitz*: special construction office for the construction of a POW camp of the Waffen-SS in Auschwitz
- Speer-Marke*: token of the main office of *Reichsminister* Speer to be placed on Frachtbrief
- SS Neubauleitung* Auschwitz: new construction office, name of ZBL during the early history of the camp
- SS Unterkunft* Auschwitz: construction project of the ZBL of Auschwitz
- SS Unterkunft und Konzentrationslager Auschwitz*: construction project of the ZBL of Auschwitz
- SS Wirtschaftler*: plenipotentiary for economic and administrative affairs of the SS in the jurisdiction of the *Höherer SS und Polizeiführer*
- SS Wirtschafts-Verwaltungshauptamt (WVHA)*: Economic Administrative Main Office of the SS, in charge of constructing and running the camp system.
- Stand der Arbeiter und Angestellten vom...* (Number of workers and employees on...): report drawn up by *Nebenstelle* Auschwitz of the labor office Bielitz
- Statistik* (statistics): *Sachgebiet* of the ZBL Auschwitz
- Stellmacher-Kommando*: cartwrights squad
- Stellvertreter*: box on the stamp for incoming mail of the ZBL of Auschwitz, in which the progressive protocol number was to be written
- Straßenbau* (road construction): competence of the department *Tiefbau* of the ZBL of Auschwitz
- Tätigkeits- bzw. Baubericht – Abteilung Hochbau*: activity/construction report of the construction department on and above ground.
- Tätigkeitsbericht* (activity report) of the civilian employee H. Teichmann
- “ (activity report): monthly report on the construction activities of the ZBL of Auschwitz; weekly report on construction activities of the SS *Neubauleitung* of Auschwitz

- “ *der Fahrbereitschaft der Zentralbauleitung der Waffen-SS und Polizei Auschwitz*: activity report of the motor pool of the ZBL of Auschwitz
- “ *der Technischen Abteilung*: activity report of the technical department
- “ *der Tiefbau- und Vermessungsabteilung*: activity report of the construction department on or below ground and of the surveying department
- “ *des SS Unterscharführers Kirschnek, Bauführer Abteilung Hochbau*: activity report of SS Unterscharführer Kirschnek head of the *Hochbau* department
- “ *des SS Ustuf. (F) Kirschnek, Bauleiter für Schutzhaftlager und Landwirtschaftliche Bauvorhaben*: activity report of SS Untersturmbannführer Kirschnek relating to the *Schutzhaftlager* and to agricultural construction projects
- “ – *Strassenbau*: report on road construction
- “ – *Gartengestaltung*: report on gardening activities
- Technische Abteilung* (technical department): of the ZBL of Auschwitz
- Teilrechnung*: partial invoice
- Tiefbau* (construction on or below ground level): department of the *Bauleitung* Auschwitz; department of the ZBL of Auschwitz; *Sachgebiet* of the ZBL of Auschwitz
- Tischler-Kommando*: inmate joiners' squad of the ZBL
- Übergabe*: consignment of a construction site to the Kommandatur of the concentration camp
- Übergabeverhandlung*: negotiation on the consignment of a construction site to the Kommandatur of the concentration camp
- Übersicht über Anzahl und Einsatz der Häftlinge des Konzentrationslager Auschwitz* (summary of the number and deployment of inmates of Concentration Camp Auschwitz): report drawn up by the *Arbeitseinsatzführer* of the individual men's camps
- “ *über Anzahl und Einsatz der weiblichen Häftlinge des Konzentrationslager Auschwitz* (summary of the number and deployment of inmates of Concentration Camp Auschwitz): report drawn up by the *Arbeitseinsatzführer* of the women's camp at Auschwitz
- “ *Übersicht über den Häftlingseinsatz im KL Auschwitz* (summary on the deployment of inmates in Concentration Camp Auschwitz): monthly report drawn up by *Abteilung IIIa*
- Vermessung* (surveying): competence of the *Tiefbau*; department of the ZBL of Auschwitz
- Vermessungsabteilung* (surveying section): department of the SS *Neubauleitung* Auschwitz, later department of the ZBL of Auschwitz
- Vermessungskommando*: surveying inmate squad of the ZBL

Versandanzeige (shipping notice): of a firm for the shipment of materials

Verteiler: distribution list of letters to relevant offices

Verzeichnis der Einrichtungsgegenstände (list of building equipment): document attached to the *Übergabeverhandlung*

Verzeichnis über sämtliche am Bau eingesetzten Firmen mit Angaben der Haft und Garantiezeiten (list of all firms employed in construction with responsibility and duration of guarantee given): document attached to the *Übergabeverhandlung*

Wagenschmiede-Kommando: inmate truck forging squad of the ZBL

Wasserversorgung (water supply): competence of the department *Tiefbau* of the ZBL of Auschwitz

Wehrkreis (defense district): administrative district of the German army

Wehrkreisrangfolgelisten: district list of the order of precedence for the construction management

Werkstätten (workshops): *Sachgebiet* of the ZBL of Auschwitz

Werkstattleiter: head of workshop

Werkstattleitung (WL): workshops management

WL-Schlosserei: register of the orders of the *D.A.W. WL Schlosserei*

Zentralbauleitung: Central Construction Office

“*der Waffen-SS und Polizei Auschwitz*: see above, for Auschwitz

Zentrale Bauinspektion für den neuen Ostraum: central construction inspection for the new eastern territories.

Zimmerbetrieb und Dachdeckerbetrieb (carpentry shop and roofing shop): *Sachgebiet* of the ZBL of Auschwitz

Zivilangestellter (Z.A.): civilian employee

Zusammenstellung des Häftlingseinsatzes (summary of deployment of inmate labor): monthly report drawn up by the ZBL

Abbreviations

APMO	Archivum Państwowego Muzeum w Oświęcimiu (Archive of the Auschwitz State Museum)
BAK	Bundesarchiv Koblenz (Federal Archive of Coblenz)
<i>GARF</i>	Gosudarstvenni Archiv Rossiiskoi (State Archive of the Russian Federation), Moscow
<i>RGVA</i>	Rossiiskii Gosudarstvennii Vojennii Archiv (Russian State War Museum),

Index of Names

The following index indicates: Names in *italics* denote members of the Central Construction Office of Auschwitz (the SS with the highest rank attested, civilian employees with the initials Z.A. = Zivilangestellter); the letter T followed by a number designates the related table containing the names of SS men or civilian employees not appearing in the text. In capital letters the names of firms working in Auschwitz camp. Page numbers in *italics* indicate occurrences in footnotes.

HOLOCAUST HANDBOOKS

This ambitious, growing series addresses various angles of the “Holocaust” of the WWII era. Most of them are based on decades of research from archives all over the world. They are heavily footnoted and referenced. In contrast to most other works on this issue, the tomes of this series approach its topic with profound academic scrutiny and a critical attitude. Any Holocaust researcher ignoring this series will remain oblivious to some of the most important research in the field. These books are designed to both convince the common reader as well as academics. The following books have appeared so far and are available from THE BARNES REVIEW and CODOH/CASTLE HILL PUBLISHERS:

SECTION ONE:

General Overviews of the Holocaust

The First Holocaust. Jewish Fundraising Campaigns With Holocaust Claims During and After World War One. By Don Heddesheimer. This

compact but substantive study documents propaganda spread prior to, during and after the FIRST World War that claimed East European Jewry was on the brink of annihilation. The magic number of suffering and dying Jews was 6 million back then as well. The book details how these Jewish fundraising operations in

America raised vast sums in the name of feeding suffering Polish and Russian Jews but actually funneled much of the money to Zionist and Communist groups. Second edition, 142 pages, b&w illustrations, bibliography, index. (#6)

Lectures on the Holocaust. Controversial Issues Cross Examined. By Gernar Rudolf. Between

1992 and 2005 German scholar Gernar Rudolf lectured to various audiences about the Holocaust in the light of new findings. Rudolf's sometimes astounding facts and arguments fell on fertile soil among his listeners, as they were presented in a very sensitive and scholarly way. This book is the literary version of Rudolf's

lectures, enriched with the most recent findings of historiography. Rudolf introduces the most important arguments for his findings, and his audience reacts with supportive, skeptical and also hostile questions. We believe this book is the best introduction into this taboo topic. Second edition, 500 pages, b&w illustrations, bibliography, index. (#15)

Breaking the Spell: The Holocaust, Myth & Reality. By Nicholas Kollerstrom. In 1941, British Intelligence analysts cracked the German “Enigma” code. Hence, in 1942 and 1943, encrypted radio communications between German concentration camps and the Berlin headquarters were decrypted. The intercepted data

refutes, the orthodox “Holocaust” narrative. It reveals that the Germans were desperate to reduce the death rate in their labor camps, which was caused by catastrophic typhus epidemics. Dr. Kollerstrom, a science historian, has taken these intercepts and a wide array of mostly unchallenged corroborating evidence to show that “witness statements” supporting the human gas chamber narrative clearly clash with the available scientific data. Kollerstrom concludes that the history of the Nazi “Holocaust” has been written by the victors with ulterior motives. It is distorted, exaggerated and largely wrong. With a foreword by Prof. Dr. James Fetzner. 2nd edition, 257 pages, b&w illustrations, bibliography, index. (#31)

Debating the Holocaust. A New Look at Both Sides. By Thomas Dalton. Mainstream historians insist that there cannot be, may not be a debate about the Holocaust. But ignoring it does not make this controversy go away. Traditional scholars admit that there was neither a budget, a plan, nor an order for the Holocaust; that the key camps have all but vanished, and so have any human remains; that material and unequivocal documentary evidence is absent; and that there are serious problems with survivor testimonies. Dalton juxtaposes the traditional

Debating the Holocaust. A New Look at Both Sides. By Thomas Dalton. Mainstream historians insist that there cannot be, may not be a debate about the Holocaust. But ignoring it does not make this controversy go away. Traditional scholars admit that there was neither a budget, a plan, nor an order for the Holocaust; that the key camps have all but vanished, and so have any human remains; that material and unequivocal documentary evidence is absent; and that there are serious problems with survivor testimonies. Dalton juxtaposes the traditional

All books are 6"x9" paperbacks unless otherwise stated. Library discounts are available for the whole set and all subsequent volumes.

Holocaust narrative with revisionist challenges and then analyzes the mainstream's responses to them. He reveals the weaknesses of both sides, while declaring revisionism the winner of the current state of the debate. 2nd, revised and expanded edition, 332 pages, b&w illustrations, bibliography, index. (#32)

The Hoax of the Twentieth Century. The Case against the Presumed Extinction of European Jewry. By Arthur R. Butz. The first writer to analyze the entire Holocaust complex in a precise scientific manner. This book exhibits the overwhelming force of arguments accumulated by the mid-1970s. It continues to be a major historical reference work, frequently cited by prominent personalities. This edition has numerous supplements with new information gathered over the last 35 years. Fourth edition, 524 pages, b&w illustrations, bibliography, index. (#7)

Dissecting the Holocaust. The Growing Critique of 'Truth' and 'Memory.' Edited by Germar Rudolf. *Dissecting the Holocaust* applies state-of-the-art scientific technique and classic methods of detection to investigate the alleged murder of millions of Jews by Germans during World War II. In 22 contributions—each of some 30 pages—the 17 authors dissect generally accepted paradigms of the “Holocaust.” It reads as exciting as a crime novel: so many lies, forgeries and deceptions by politicians, historians and scientists are proven. This is the intellectual adventure of the 21st century. Be part of it! Second revised edition. 616 pages, b&w illustrations, bibliography, index. (#1)

The Dissolution of Eastern European Jewry. By Walter N. Sanning. Six million Jews died in the Holocaust. Sanning did not take that number at face value, but thoroughly explored European population developments and shifts mainly caused by emigration as well as deportations and evacuations conducted by both Nazis and the Soviets, among other things. The book is based mainly on Jewish, Zionist and mainstream sources. It concludes that a sizeable share of the Jews found missing during local censuses after the Second World War, which were so far counted as “Holocaust victims,” had either emigrated (mainly to Israel or the U.S.) or had been deported by Stalin to Siberian labor camps. 2nd, corrected edition, foreword by A.R. Butz, epilogue by Germar Rudolf containing important updates; ca. 220 pages, b&w illustrations, bibliography (#29).

Air Photo Evidence: World War Two Photos of Alleged Mass Murder Sites Analyzed. By John C. Ball. During World War Two both German and Allied reconnaissance aircraft took countless air photos of places of tactical and strategic interest in Europe. These photos are prime evidence for the investigation of the Holocaust. Air photos of locations like Auschwitz, Majdanek, Treblinka, Babi Yar etc. permit an insight into what did or did not happen there. John Ball has unearthed many pertinent photos and has thoroughly analyzed them. This book is full of air photo reproductions and schematic drawings explaining them. According to the author, these images refute many of the atrocity claims made by witnesses in connection with events in the German sphere of influence. 3rd revised and expanded edition. Edited by Germar Rudolf; with a contribution by Carlo Mattogno. 168 pages, 8.5”x11”, b&w illustrations, bibliography, index (#27).

The Leuchter Reports: Critical Edition. By Fred Leuchter, Robert Faurisson and Germar Rudolf. Between 1988 and 1991, U.S. expert on execution technologies Fred Leuchter wrote four detailed reports addressing whether the Third Reich operated homicidal gas chambers. The first report on Auschwitz and Majdanek became world famous. Based on chemical analyses and various technical arguments, Leuchter concluded that the locations investigated “could not have then been, or now be, utilized or seriously considered to function as execution gas chambers.” 3rd edition, 242 pages, b&w illustrations. (#16)

The Giant with Feet of Clay: Raul Hilberg and His Standard Work on the “Holocaust.” By Jürgen Graf. Raul Hilberg’s major work *The Destruction of European Jewry* is an orthodox standard work on the Holocaust. But what evidence does Hilberg provide to back his thesis that there was a German plan to exterminate Jews, carried out mainly in gas chambers? Jürgen Graf applies the methods of critical analysis to Hilberg’s evidence and examines the results in light of modern historiography. The results of Graf’s critical analysis are devastating for Hilberg. 2nd, corrected edition, 139 pages, b&w illustrations, bibliography, index. (#3)

Jewish Emigration from the Third Reich. By Ingrid Weckert. Current historical writings about the Third Reich claim state it was difficult for Jews to flee from Nazi persecution. The truth is that Jewish emigration was welcomed by the German authorities. Emigra-

tion was not some kind of wild flight, but rather a lawfully determined and regulated matter. Weckert's booklet elucidates the emigration process in law and policy. She shows that German and Jewish authorities worked closely together. Jews interested in emigrating received detailed advice and offers of help from both sides. 72 pages, index. (#12) (cover shows new reprint edition in preparation)

Inside the Gas Chambers: The Extermination of Mainstream Holocaust Historiography. By Carlo Mattogno. Neither increased media propaganda or political pressure nor judicial persecution can stifle revisionism. Hence, in early 2011, the Holocaust Orthodoxy published a 400 pp. book (in German) claiming to refute "revisionist propaganda," trying again to prove "once and for all" that there were homicidal gas chambers at the camps of Dachau, Natzweiler, Sachsenhausen, Mauthausen, Ravensbrück, Neuengamme, Stutthof... you name them. Mattogno shows with his detailed analysis of this work of propaganda that mainstream Holocaust hagiography is beating around the bush rather than addressing revisionist research results. He exposes their myths, distortions and lies. 268 pages, b&w illustrations, bibliography. (#25)

SECTION TWO: Books on Specific Camps

Treblinka: Extermination Camp or Transit Camp? By Carlo Mattogno and Jürgen Graf. It is alleged that at Treblinka in East Poland between 700,000 and 3,000,000 persons were murdered in 1942 and 1943. The weapons used were said to have been stationary and/or mobile gas chambers, fast-acting or slow-acting poison gas, unslaked lime, superheated steam, electricity, diesel exhaust fumes etc. Holocaust historians alleged that bodies were piled as high as multi-storied buildings and burned without a trace, using little or no fuel at all. Graf and Mattogno have now analyzed the origins, logic and technical feasibility of the official version of Treblinka. On the basis of numerous documents they reveal Treblinka's true identity as a mere transit camp. 365 pages, b&w illustrations, bibliography, index. (#8)

Belzec in Propaganda, Testimonies, Archeological Research and History. By Carlo Mattogno. Witnesses report that between 600,000 and 3 million Jews were murdered in the Belzec camp, located in Poland. Various murder weapons are claimed to have

been used: diesel gas; unslaked lime in trains; high voltage; vacuum chambers; etc. The corpses were incinerated on huge pyres without leaving a trace. For those who know the stories about Treblinka this sounds familiar. Thus the author has restricted this study to the aspects which are new compared to Treblinka. In contrast to Treblinka, forensic drillings and excavations were performed at Belzec, the results of which are critically reviewed. 138 pages, b&w illustrations, bibliography, index. (#9)

Sobibor: Holocaust Propaganda and Reality. By Jürgen Graf, Thomas Kues and Carlo Mattogno. Between 25,000 and 2 million Jews are said to have been killed in gas chambers in the Sobibór camp in Poland. The corpses were allegedly buried in mass graves and later incinerated on pyres. This book investigates these claims and shows that they are based on the selective use of contradictory eyewitness testimony. Archeological surveys of the camp in 2000-2001 are analyzed, with fatal results for the extermination camp hypothesis. The book also documents the general National Socialist policy toward Jews, which never included a genocidal "final solution." 434 pages, b&w illustrations, bibliography, index. (#19)

The "Extermination Camps" of "Aktion Reinhardt". By Jürgen Graf, Thomas Kues and Carlo Mattogno. In late 2011, several members of the exterminationist *Holocaust Controversies* blog published a study which claims to refute three of our authors' monographs on the camps Belzec, Sobibor and Treblinka (see previous three entries). This tome is their point-by-point response, which makes "mince-meat" out of the bloggers' attempt at refutation. It requires familiarity with the above-mentioned books and constitutes a comprehensive update and expansion of their themes. 2nd edition, two volumes, total of 1396 pages, illustrations, bibliography. (#28)

Chelmo: A Camp in History & Propaganda. By Carlo Mattogno. The world's premier holocaust scholar focuses his microscope on the death camp located in Poland. It was at Chelmo that huge masses of prisoners—as many as 1.3 million—were allegedly rounded up and killed. His book challenges the conventional wisdom of what went on inside Chelmo. Eyewitness statements, forensics reports, cornerers' reports, excavations, crematoria, building plans, U.S. reports, German documents, evacuation efforts, mobile gas vans for homicidal purposes—all

are discussed, 191 pages, indexed, illustrated, bibliography. (#23)

The Gas Vans: A Critical Investigation. (A perfect companion to the Chelmno book.) By Santiago Alvarez and Pierre Marais. It is alleged that the Nazis used mobile gas chambers to exterminate 700,000 people. Up until 2011, no thorough monograph had appeared on the topic. Santiago Alvarez has remedied the situation. Are witness statements reliable? Are documents genuine? Where are the murder weapons? Could they have operated as claimed? Where are the corpses? Alvarez has scrutinized all known wartime documents, photos and witness statements on this topic, and has examined the claims made by the mainstream. 390 pages, b&w illustrations, bibliography, index. (#26)

Concentration Camp Majdanek. A Historical and Technical Study. By Carlo Mattogno and Jürgen Graf. Little research had been directed toward Concentration Camp Majdanek in central Poland, even though it is claimed that up to a million Jews were murdered there. The only information available is discredited Polish Communist propaganda. This glaring research gap has finally been filled. After exhaustive research of primary sources, Mattogno and Graf created a monumental study which expertly dissects and repudiates the myth of homicidal gas chambers at Majdanek. They also critically investigated the legend of mass executions of Jews in tank trenches ("Operation Harvest Festival") and prove them groundless. The authors' investigations lead to unambiguous conclusions about the camp which are radically different from the official theses. Again they have produced a standard and methodical investigative work, which authentic historiography cannot ignore. Third edition, 350 pages, b&w illustrations, bibliography, index. (#5)

Concentration Camp Stutthof and Its Function in National Socialist Jewish Policy. By Carlo Mattogno and Jürgen Graf. The Stutthof camp in Prussia has never before been scientifically investigated by traditional historians, who claim nonetheless that Stutthof served as a 'makeshift' extermination camp in 1944. Based mainly on archival resources, this study thoroughly debunks this view and shows that

Stutthof was in fact a center for the organization of German forced labor toward the end of World War II. Third edition, 171 pages, b&w illustrations, bibliography, index. (#4)

SECTION THREE: Auschwitz Studies

The Real Case of Auschwitz: Robert van Pelt's Evidence from the Irving Trial Critically Reviewed. By Carlo Mattogno. Prof. Robert van Pelt is considered one of the best mainstream experts on Auschwitz and has been called upon several times in holocaust court cases. His work is cited by many to prove the holocaust happened as mainstream scholars insist. This book is a scholarly response to Prof. van Pelt—and Jean-Claude Pressac. It shows that their studies are heavily flawed. This is a book of prime political and scholarly importance to those looking for the truth about Auschwitz. 2nd edition, 758 pages, b&w illustrations, glossary, bibliography, index. (#22)

Auschwitz: Plain Facts—A Response to Jean-Claude Pressac. Edited by Germar Rudolf. French pharmacist Jean-Claude Pressac tried to refute recent findings with their own technical methods. For this he was praised by the mainstream, and they proclaimed victory over the "revisionists." In *Auschwitz: Plain Facts*, Pressac's works and claims are debunked. 197 pages, b&w illustrations, bibliography, index. (#14)

The Rudolf Report. Expert Report on Chemical and Technical Aspects of the 'Gas Chambers' of Auschwitz. By Germar Rudolf and Dr. Wolfgang Lambrecht. In 1988, execution expert Fred Leuchter investigated the gas chambers of Auschwitz and Majdanek and concluded that they could not have worked as claimed. Ever since, Leuchter's work has been attacked. In 1993, Germar Rudolf published a thorough forensic study about the "gas chambers" of Auschwitz. His report irons out the deficiencies of "The Leuchter Report." Second edition, 457 pages, b&w illustrations, bibliography, index. (#2)

Auschwitz Lies: Legends, Lies and Prejudices on the Holocaust. By Carlo Mattogno and Germar Rudolf. The fallacious research and alleged "refutation" of Revisionist scholars by French biochemist G. Wellers, Polish Prof. J. Markiewicz, chemist Dr. Richard Green, Profs. Zimmerman, M. Shermer and A. Grobman, as well as researchers Keren, McCarthy and

Mazal, are exposed for what they are: blatant and easily exposed political lies created to ostracize dissident historians. In this book, facts beat propaganda once again. Second edition, 398 pages, b&w illustrations, index. (#18)

Auschwitz: The Central Construction Office. By Carlo Mattogno. Based upon mostly unpublished German wartime documents, this study describes the history, organization, tasks and procedures of the Central Construction Office of the Waffen-SS and Auschwitz Police. Despite a huge public interest in the camp, next to nothing was really known about this office, which was responsible for the planning and construction of the Auschwitz camp complex, including the crematories which are said to have contained the “gas chambers.” 2nd ed., 188 pages, b&w illustrations, glossary, index. (#13)

Garrison and Headquarters Orders of the Auschwitz Camp. By C. Mattogno. A large number of all the orders ever issued by the various commanders of the infamous Auschwitz camp have been preserved. They reveal the true nature of the camp with all its daily events. There is not a trace in these orders pointing at anything sinister going on in this camp. Quite to the contrary, many orders are in clear and insurmountable contradiction to claims that prisoners were mass murdered. This is a selection of the most pertinent of these orders together with comments putting them into their proper historical context. (Scheduled for early 2016; #34)

Special Treatment in Auschwitz: Origin and Meaning of a Term. By Carlo Mattogno. When appearing in German wartime documents, terms like “special treatment,” “special action,” and others have been interpreted as code words for mass murder. But that is not always true. This study focuses on documents about Auschwitz, showing that, while “special” had many different meanings, not a single one meant “execution.” Hence the practice of deciphering an alleged “code language” by assigning homicidal meaning to harmless documents – a key component of mainstream historiography – is untenable. 151 pages, b&w illustrations, bibliography, index. (#10)

Health Care at Auschwitz. By Carlo Mattogno. In extension of the above study on *Special Treatment in Auschwitz*, this study proves the extent to which the German authorities at Auschwitz tried to provide appropriate health care for the inmates. This is frequently described as special mea-

sures to improve the inmates’ health and thus ability to work in Germany’s armaments industry. This, after all, was the only thing the Auschwitz authorities were really interested in due to orders from the highest levels of the German government. (Scheduled for early 2016; #33)

The Bunkers of Auschwitz: Black Propaganda vs. History. By Carlo Mattogno. The bunkers at Auschwitz are claimed to have been the first homicidal gas chambers at Auschwitz specifically equipped for this purpose. With the help of original German wartime files as well as revealing air photos taken by Allied reconnaissance aircraft in 1944, this study shows that these homicidal “bunkers” never existed, how the rumors about them evolved as black propaganda created by resistance groups in the camp, and how this propaganda was transformed into a false reality. 264 pages, illustrations, bibliography, index. (#11)

Auschwitz: The First Gassing—Rumor and Reality. By Carlo Mattogno. The first gassing in Auschwitz is claimed to have occurred on Sept. 3, 1941, in a basement room. The accounts reporting it are the archetypes for all later gassing accounts. This study analyzes all available sources about this alleged event. It shows that these sources contradict each other in location, date, preparations, victims etc, rendering it impossible to extract a consistent story. Original wartime documents inflict a final blow to this legend and prove without a shadow of a doubt that this legendary event never happened. Second edition, 168 pages, b&w illust., bibliography, index. (#20)

Auschwitz: Crematorium I and the Alleged Homicidal Gassings. By Carlo Mattogno. The morgue of Crematorium I in Auschwitz is said to be the first homicidal gas chamber there. This study investigates all statements by witnesses and analyzes hundreds of wartime documents to accurately write a history of that building. Mattogno proves that its morgue was never a homicidal gas chamber, nor could it have worked as such. 138 pages, b&w illustrations, bibliography, index. (#21)

Auschwitz: Open Air Incinerations. By Carlo Mattogno. Hundreds of thousands of corpses of murder victims are claimed to have been incinerated in deep ditches in the Auschwitz concentration camp. This book examines the many testimonies regarding these incinerations and establishes whether

these claims were even possible. Using aerial photographs, physical evidence and wartime documents, the author shows that these claims are fiction. A must read. 132 pages, b&w illustrations, bibliography, index. (#17)

The Cremation Furnaces of Auschwitz. By Carlo Mattogno & Franco Deana. An exhaustive technical study of the history and technology of cremation in general and of the cremation furnaces of Auschwitz in particular. On a sound and thoroughly documented base of technical literature, extant wartime documents and material traces, Mattogno and Deana can establish the true nature and capacity of the Auschwitz cremation furnaces. They show that these devices were cheaper versions than what was usually produced, and that their capacity to cremate corpses was lower than normal, too. Hence this study reveals that the Auschwitz cremation furnaces were not monstrous super ovens but rather inferior make-shift devices. 3 vols., 1198 pages, b&w and color illustrations (vols 2 & 3), bibliography, index, glossary. (#24)

SECTION FOUR

Witness Critique

Holocaust High Priest: Elie Wiesel, Night, the Memory Cult, and the Rise of Revisionism. By Warren B. Rutledge. The first unauthorized biography of Wiesel exposes both his personal deceptions and the whole myth of “the six million.” It shows how Zion-

ist control has allowed Wiesel and his fellow extremists to force leaders of many nations, the U.N. and even popes to genuflect before Wiesel as symbolic acts of subordination to World Jewry, while at the same time forcing school children to submit to Holocaust brainwashing. 468 pages, b&w illust., bibliography, index. (#30)

Auschwitz: Confessions and Testimonies. By Jürgen Graf. The traditional narrative of what transpired at the infamous Auschwitz camp during WWII rests almost exclusively on witness testimony from former inmates as well as erstwhile camp officials. This study critically scrutinizes the 40 most important of these witness statements by checking them for internal coherence, and by comparing them with one another as well as with other evidence such as wartime documents, air photos, forensic research results, and material traces. The result is devastating for the traditional narrative. (Scheduled for summer 2016; #36)

Commandant of Auschwitz: Rudolf Höss, His Torture and His Forced Confessions. By Rudolf Höss & Carlo Mattogno. When Rudolf Höss was in charge at Auschwitz, the mass extermination of Jews in gas chambers is said to have been launched and carried out. He confessed this in numerous postwar depositions. Hence Höss's testimony is the most convincing of all. But what traditional sources usually do not reveal is that Höss was severely tortured to coerce him to “confess,” and that his various statements are not only contradictory but also full of historically and physically impossible, even absurd claims. This study expertly analyzes Höss's various confessions and lays them all open for everyone to see the ugly truth. (Scheduled for summer 2016; #35)

An Auschwitz Doctor's Eyewitness Account: The Tall Tales of Dr. Mengele's Assistant Analyzed. By Miklos Nyiszli & Carlo Mattogno. Nyiszli, a Hungarian Jew who studied medicine in Germany before the war, ended up at Auschwitz in 1944 as Dr. Mengele's assistant. After the war he wrote an account of what he claimed to have experienced. To this day some traditional historians take his accounts seriously, while others accept that it is a grotesque collection of lies and exaggerations. This study analyzes Nyiszli's novel and skillfully separates truth from fabulous fabrication. (Scheduled for spring 2016; #37)

Further Projects

Further studies we propose to publish would scrutinize eyewitness accounts from, e.g., Filip Müller, Rudolf Vrba, Henryk Tauber, Yankiel Wiernik, Richard Glazar. Scholars interested in taking on any of these or other witnesses, please get in touch using the contact form at www.codoh.com/contact-us

Wilhelm Stäglich, *Auschwitz: A Judge Looks at the Evidence*

Auschwitz is the epicenter of the Holocaust, where more people are said to have been murdered than anywhere else. At this detention camp the industrialized Nazi mass murder is said to have reached its demonic pinnacle. This narrative is based on a wide range of evidence, the most important of which was presented during two trials: the International Military Tribunal of 1945/46, and the German Auschwitz Trial of 1963-1965 in Frankfurt.

The late Wilhelm Stäglich, until the mid-1970s a German judge, has so far been the only legal expert to critically analyze this evidence. His research reveals the incredibly scandalous way in which the Allied victors and later the German judicial authorities bent and broke the law in order to come to politically foregone conclusions. Stäglich also exposes the shockingly superficial way in which historians are dealing with the many incongruities and discrepancies of the historical record. Second, corrected and slightly revised edition with a new preface and epilogue.

422 pp., 6"×9", pb, ill.

P. Angel, J. Tiffany: *Fountain of Fairytales: A Scholarly Romp Through the Old Testament*

Some say the Old Testament is a collection of valuable parables with no basis in historical fact, while others have made a living of trying to prove that it is an accurate history of early man. *Fountain of Fairytales* takes us on a whirlwind tour of the Old Testament, telling us which stories are pure balderdash and which may have some basis in real archeology and authentic history. And also which tales seem to have been borrowed from other primary cultural sources including the Egyptians. If you want proof the entire Bible is a faithful transcription of the word of God – straight from mouth to Jewish scribe's pen – read no further, for this book is more of a light-hearted yet scholarly tour of the Old Testament, not a dense religio-historical treatise. If you're ready for a tour of the Old Testament like none other, get a copy of *Fountain of Fairytales*.

178 pp. pb, 5.5"×8.5"

Abdallah Melaouhi, *Rudolf Hess. His Betrayal and Murder*

In May 1941, Rudolf Hess, Hitler's right-hand man, flew to England to make peace. His plane crashed, and he was made a prisoner of the Allies and kept in solitary confinement nearly the rest of his life. What truths about the war did Hess possess that were of such danger? The author worked as a male nurse caring for Rudolf Hess from 1982 until his death in 1987 at the Allied Prison in Berlin. Minutes after the murder he was called to the prison. Ask by the author what had happened, an unknown U.S. soldier replied: "The pig is finished; you won't have to work a night shift any longer." What he experienced there, minutely described in this book, proves beyond doubt that Mr. Hess was strangled to death by his Anglo-Saxon captors.

300 pp. pb, 6"×9", ill.

Curtis B. Dall, *FDR: My Exploited Father-in-Law*

The author was FDR's son-in-law and spent much time in the White House. He had an insider's view of who came to see FDR and Eleanor and how often. Dall also was a Wall Street banker and knew the tricks and tactics the financial predators use to deceive the public. The book is loaded with personal anecdotes of the people Dall met during his life. This included such notables as Franklin and Eleanor Roosevelt, Bernard Baruch, Henry Morgenthau Jr., Harry Dexter White, the Warburgs, Rothschilds, and more. Dall views the stock market crash of October 1929 as "the calculated shearing of the public triggered by the sudden shortage of call money in the New York money market." He views the Federal Reserve and their globalist cheerleaders as being against the interests of Americans. They plan and execute the wars that line their pockets and ravage the world. Dall portrays FDR as a man who began his career as an optimistic ladder-climber and ended up as one of the most manipulated presidents in U.S. history. Reprint with a foreword by Willis A. Carto.

298 pp., 5.5"×8.5", pb

Herbert L. Brown, *The Devil's Handiwork. A Victim's View of "Allied" War Crimes*

An amazing compilation of war crimes committed by the "good guys" against the "bad guys." Many of the events covered in this book are to this day censored or twisted in mainstream history books. Chapters cover: Death camps in the Civil War; concentration camps in the Boer War; The Dresden Massacre – the worst war crime in history; the Ukrainian terror famine; the gruesome harvest in Eastern Europe; the myth of the 6 million; Operation Keelhaul; the Nuremberg Trials; the Katyn Forest Massacre; the Stuttgart Atrocity; bastardizing the Germans after WWII; the use of the atom bomb; Cuba betrayed; the Invasion of Lebanon; the policy of de-Nazification; the Malmédy Trial; the Dachau Trial; the Vinnytsia genocide; crimes during the occupation of Germany; FDR's Great Sedition Trial; the Morgenthau Plan; the propaganda of the Writers War Board; myths of civilian bombings; the Lend-Lease fiasco; truth about Auschwitz; Pearl Harbor; the Soviet genocide across Europe; much more.

275 pp., 5.5"×8.5", pb

Ralph Grandinetti, *Final Solution. Germany's Madagascar Resettlement Plan*

Everyone "knows" the Germans had a "final solution" for their so-called "Jewish Problem." But Adolf Hitler's final solution did not involve homicidal gas chambers and blazing crematory ovens. Instead, Hitler's final solution offered Jewish leaders the island of Madagascar, back then a French colony. In a meeting with Vichy French Prime Minister Pierre Laval, Laval agreed to turn Madagascar into a new Jewish homeland where, ultimately, all of Europe's 4,000,000 Jews might be settled. This new Madagascar was to be governed by a joint German-French board with representation granted to any government cooperating. What a paradise Madagascar could have become, but instead Zionists insisted on occupying the "Holy Land," where they knew strife and conflict awaited them. What was the Madagascar Plan, and why did it fail? Which world leaders supported it – and which did not? Why was the plan eventually abandoned?

108 pp., 5.5"×8.5", pb

John Tiffany, *A Short History of the Balfour Declaration*

Few have heard of the Balfour Declaration, the history of which is known primarily to students of global affairs. What general knowledge there is surrounding its origins is usually limited to dry accounts in diplomatic histories. But here is a case where truth is stranger than fiction. The issuance of the Balfour Declaration set the stage for American entry into World War I and thereby laid the groundwork for World War II and the many consequential global convulsions that followed. And, ultimately, of course, it's the foundation of the tension in the Middle East today that points toward further war and destruction. Here is the secret history of the Balfour Declaration, laid out in no uncertain terms and devoid of euphemism and political correctness. Those who have any serious desire to understand the sources of world conflict need this precise and candid analysis – the facts – about the behind-the-scenes machinations that brought the Balfour Declaration into being – and why.

118 pp., 5.5"×8.5", pb

Germar Rudolf: *Resistance is Obligatory!*

In 2005 Rudolf, a peaceful dissident and publisher of revisionist literature, was kidnapped by the U.S. government and deported to Germany. There the local lackey regime staged a show trial against him for his historical writings. Rudolf was not permitted to defend his historical opinions, as the German penal law prohibits this. Yet he defended himself anyway: 7 days long Rudolf held a speech in the court room, during which he proved systematically that only the revisionists are scholarly in their attitude, whereas the Holocaust orthodoxy is merely pseudo-scientific. He then explained in detail why it is everyone's obligation to resist, without violence, a government which throws peaceful dissident into dungeons. When Rudolf tried to publish his public defence speech as a book from his prison cell, the public prosecutor initiated a new criminal investigation against him. After his probation time ended in 2011, he dared publish this speech anyway...

376 pp., 6"×9", pb, colour ill.
